

# DCPDS

## (Web-Based Version – Oracle 11i)

### Quick Start Guide

## Overview

### Introduction

This guide explains the initial steps to navigate Oracle 11i, the web-based version of DCPDS. New features in 11i include:

- Required fields are highlighted.
- List of Values (LOVs) are embedded with the data fields.
- Date format allows for free form entry, which is automatically converted to the correct system format.
- Tabs have replaced many flexfields.
- A **Person Summary** for viewing all the employee data.
- A **Position History** for viewing changes to the position record.
- Less down time – no client loads for patches.

## Overview, Continued

---

### See Also

Modern DCPDS User Guide posted on the DoD CPMS Home Page for specific processing details.

---

### Before You Begin

- Obtain a User Name.
  - Set up your secure password.
  - Ensure you are:
    - Assigned to a routing group.
    - Assigned the Workflow Inbox responsibility to view your inbox.
    - Assigned a secure view if you use OTA.
- 

### System Maintenance

Because Oracle 11i is web-based, files are added to your temporary internet file folder. You should periodically purge this folder. Use the following steps:

Step	Action
1	In the Internet Browser, click <b>Tools/Internet Options</b> on the Main Toolbar. The <b>Internet Options</b> Window displays. In the middle Region, “Temporary Internet Files,” states: “Pages you view on the internet are stored in a special folder for quick viewing later.”
2	Click < <b>Delete Files.</b> > The <b>Delete Files</b> Window Displays.
3	Click < <b>OK.</b> >

---

## System Changes/New Features

---

**Purpose** This section explains some of the system changes and new features in 11i and the action required to use them.

---

### System Changes/Description/Function

System Changes	Description/Function										
Switch <b>Responsibility</b>	Replaced with a new icon on the toolbar (a derby hat). 										
System Times Out	Leave the Oracle picture on the screen, right click on the mouse and click "Refresh" on the menu. Saves logging on again.										
Function Key <b>F8</b> is now <b>F11</b>	For Query: <ul style="list-style-type: none"> <li>Place the cursor in the first blank data field.</li> <li>Press <b>F11</b> and then <b>Ctrl</b> and <b>F11</b> simultaneously.</li> </ul>										
List of Values (LOVs)	Are located within most windows.										
Data fields	Color denotes functionality: <table border="1"> <thead> <tr> <th>Color</th><th>Types of Data Fields</th></tr> </thead> <tbody> <tr> <td>Blue</td><td>Query</td></tr> <tr> <td>Yellow</td><td>Required</td></tr> <tr> <td>White</td><td>Optional</td></tr> <tr> <td>Gray</td><td>Cannot be entered (typically populates)</td></tr> </tbody> </table>	Color	Types of Data Fields	Blue	Query	Yellow	Required	White	Optional	Gray	Cannot be entered (typically populates)
Color	Types of Data Fields										
Blue	Query										
Yellow	Required										
White	Optional										
Gray	Cannot be entered (typically populates)										
Record Types	<b>Employee – Ex Applicant:</b> Someone appointed and hired in DCPDS. <b>Employee:</b> Someone who was converted from Legacy or moved from one region to another (Mod to Mod).										
Tabs	Replaced alternate regions.										
<b>Position</b> has enhanced Date Tracking	You can view all the history of changes that have occurred on a position.										
<b>RPA, Salary Change, Awards and Mass Awards</b>	System calculates percentages.

# Logging On

**Purpose** This section shows you how to log on to Oracle 11i.

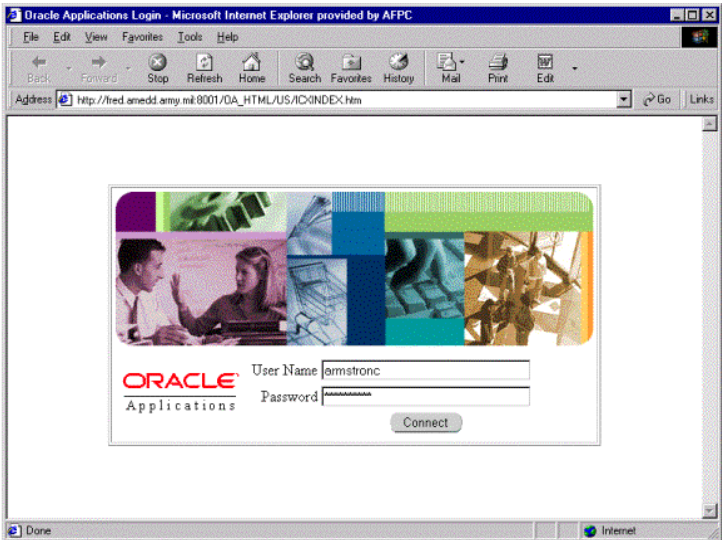

**Logging On** Follow these steps to log on:

Step	Action
1	<p>Click on the <b>Oracle 11i</b> Icon on your desktop. The <b>Oracle Rapid Install Release 11i Web Page</b> displays:</p> 
2	<p>Click &lt;<b>Apps Logon Links</b>&gt;. The right side of the window populates:</p> 

*Continued on next page*

## Logging On, Continued

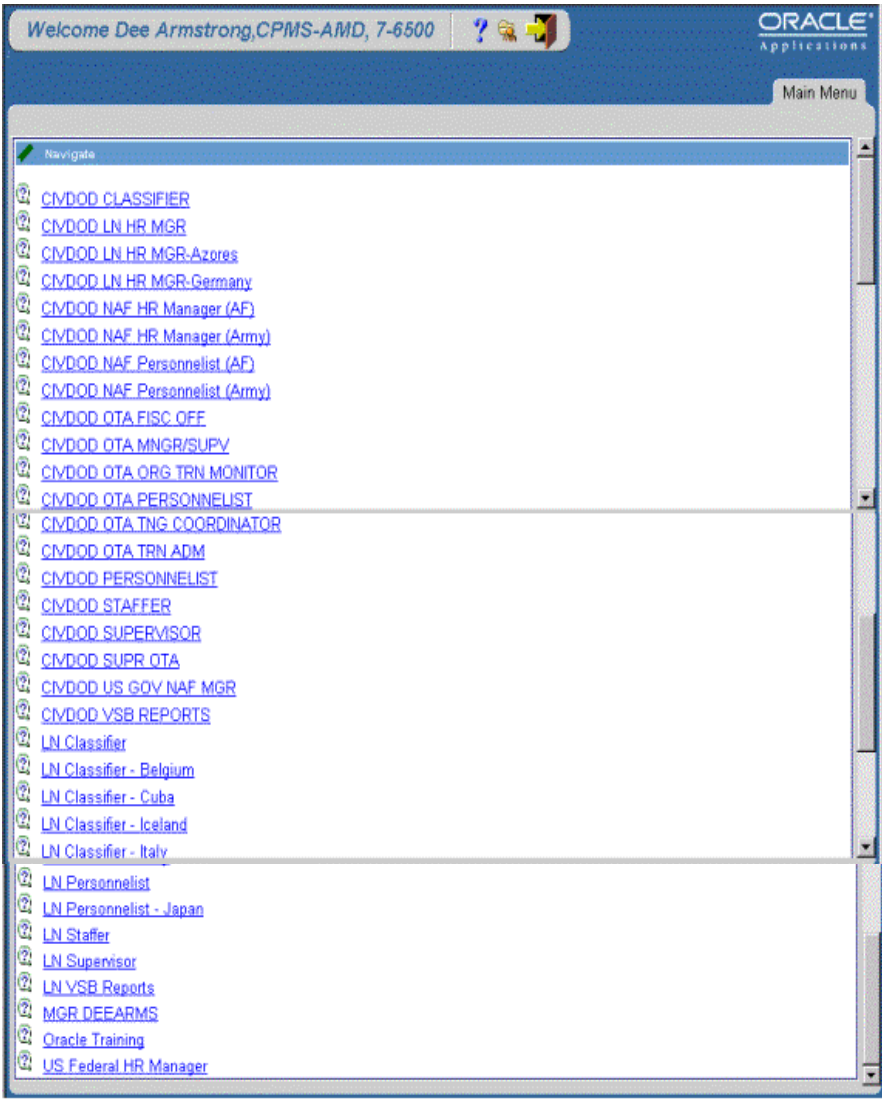

### Logging On (continued)

Step	Action
3	<p>Click &lt;<b>Personal Home Page</b>&gt;. The <b>Oracle Application Login</b> Window displays:</p> 
4	Type your assigned User Name in the <b>User Name</b> field.
5	In <b>Password</b> , type in "Password." Click <Connect> (or Enter).
6	<ul style="list-style-type: none"> <li>• If you have established an 11i Password, disregard this step.</li> <li>• If you have not established an 11i Password, a screen will display which will ask you to type in the old ("Password") and your own unique password (twice). Click &lt;Connect&gt;.</li> </ul>
7	The <b>Welcome</b> Window displays with the roles assigned to you.

## Navigating

**Purpose** This section shows how to navigate through Oracle 11i.

### Welcome Window

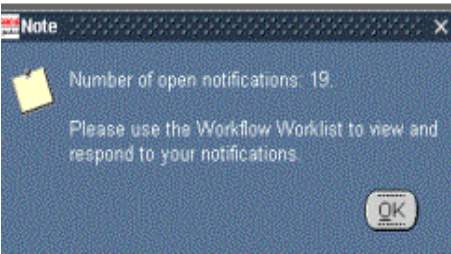

Step	Action
1	<p>On the <b>Welcome</b> Window, select your role and double click. For example: “<b>CIVDOD PERSONNELIST.</b>”</p> 

*Continued on next page*

## Navigating, Continued

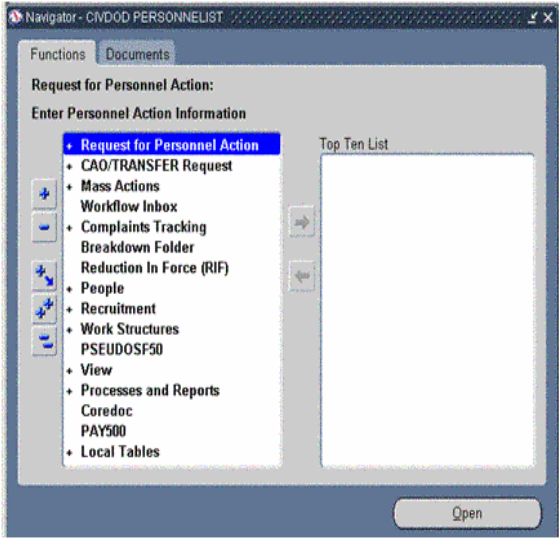

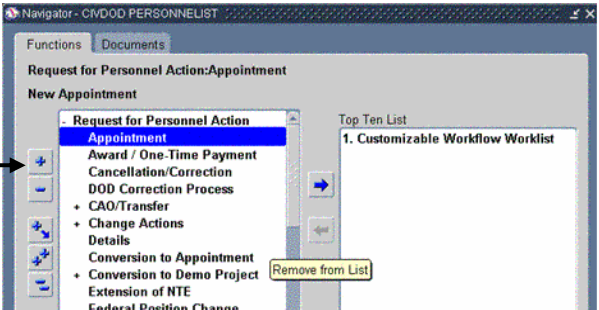

### Welcome Window (continued)

Step	Action
2	<p>The <b>Oracle Application 11i</b> Window displays as it is connecting, stating: "Loading Java Applet."</p>  <p> <b>Note:</b> The desk top bottom toolbar displays: <b>e</b> Oracle Appl.</p>
3	<p>If you have actions in your inbox, a notification displays:</p>  <p> Refer to the <b>Workflow Inbox</b> section in this guide to work these actions after you open the <b>Navigation</b> List. Click <b>&lt;OK&gt;</b>.</p> <p><b>Note:</b> Ignore the hour glass which stays on.</p>

*Continued on next page*

## Navigating, Continued

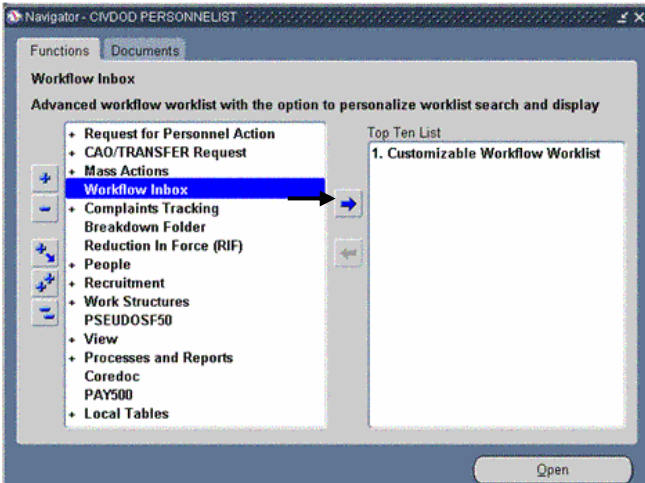

### Navigator Window

Step	Action								
1	<p>The <b>Navigator</b> Window displays with two tabs (<b>Functions</b> and <b>Documents</b>). This list of functions is the starting point to process actions, build positions, maintain employee records, run reports, etc.</p>  <table border="1"> <thead> <tr> <th>Part</th><th>Description</th></tr> </thead> <tbody> <tr> <td><b>Functions Tab</b></td><td>Displays the <b>Navigation List</b> starting with the RPA, or OTA, etc., depending on which role you are in.</td></tr> <tr> <td><b>Documents Tab</b></td><td>Not currently used by DoD.</td></tr> <tr> <td><b>Navigation List</b></td><td>Displays all the items that may be performed.</td></tr> </tbody> </table>	Part	Description	<b>Functions Tab</b>	Displays the <b>Navigation List</b> starting with the RPA, or OTA, etc., depending on which role you are in.	<b>Documents Tab</b>	Not currently used by DoD.	<b>Navigation List</b>	Displays all the items that may be performed.
Part	Description								
<b>Functions Tab</b>	Displays the <b>Navigation List</b> starting with the RPA, or OTA, etc., depending on which role you are in.								
<b>Documents Tab</b>	Not currently used by DoD.								
<b>Navigation List</b>	Displays all the items that may be performed.								
2	<p>You may click on the plus sign to expand the functions and the minus sign to contract them.</p>  <p>Double click on the item to start a process, or click <b>&lt;Open&gt;</b>.</p>								

*Continued on next page*

## Navigating, Continued

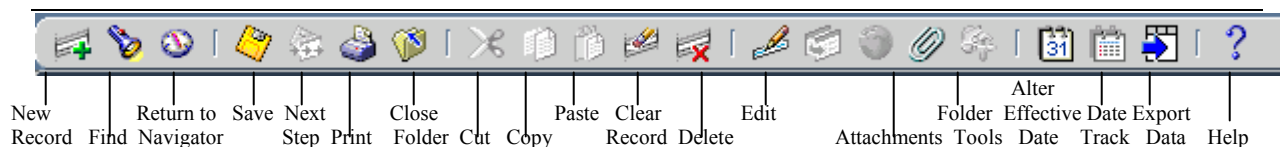

### Navigator Window continued)

Step	Action
3	<p>To set up a <b>Top Ten List</b> of your most frequently performed actions, highlight the item on the list and click the middle arrow key to the right. The item displays under “<b>Top Ten List.</b>”</p> <p>For example: Highlight <b>Workflow Inbox</b> and click the arrow key. The <b>Top Ten List</b> populates with “<b>1. Customizable Workflow Worklist.</b>”</p>  <p>To view your inbox in the future, you only need to type a “1” to open the <b>Worklist.</b></p>

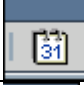

## Toolbar Icons, Functions, and Shortcut Keys

### Toolbar Icons

Click the Icon on the toolbar to display the function:

### Functions, Shortcut Keys, and Icons in Alphabetical Order:

Functions	Shortcut Keys/ Icons	Functions	Shortcut Keys/ Icons
Alter Effective Date (calendar)		Find (flashlight)	
Attachments (paper clip)		Folder Tools	
Block Menu	Ctrl+B	List of Values	Ctrl+L
Clear Block	F7	List Tab Pages	F2
Clear Field	F5	Next Block	Shift+PageDown
Clear Form	F8	Next Field	Tab
Clear Record	F6	Next Primary Key	Shift+F7
Commit/Save	Ctrl+S	Next Record	Down
Clear Record (Pencil eraser)		Export Data (document w/blue arrow)	
Count Query	F12	List of Values	Ctrl+L
Copy (documents)		List Tab Pages	F2
Close Form (yellow folder w/blue arrow)		New (green plus)	
Cut (scissors)		Next Step (arrows on document)	
Date Track History		Next Set of Records	Shift +F8
Delete Record	Ctrl+Up	Previous Block	Shift+PageUp

*Continued on next page*

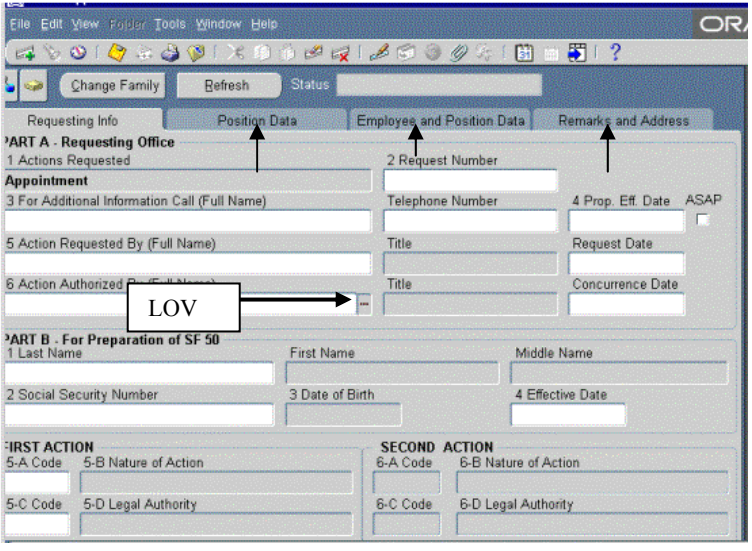

## Toolbar Icons, Functions, and Shortcut Keys, Continued

### Functions, Shortcut Keys, and Icons in Alphabetical Order: (continued)

Function	Shortcut/ Icon	Function	Shortcut/Icon
Delete (Red X)		Previous Field	Shift+Tab
Display Error	Shift+Ctrl+E	Previous Record	Up
Down	Down	Print	Ctrl+P
Duplicate Field	Shift+F5	Print (printer)	
Duplicate Record	Shift+F6	Return	Return
Edit (pencil)		Save (yellow disc)	
Edit	Ctrl+E	Show Navigator- returns to Menu	
<b>Enter Query</b>	<b>F11</b> (Press twice to display last query)	Help	Ctrl+H
<b>Execute Query</b>	<b>Ctrl+F11</b> (Use for blind queries to retrieve all records)	Insert Record	Ctrl+Down
Exit	F4	Translations	Not used
Paste		More Information Available	< >
Window Help (blue question mark)		Zoom	Not used
Switch Responsibility			

## Request for Personnel Action (RPA)

### Accessing the RPA

Step	Action
1	<p>On the <b>Navigator</b> Window, double click on the action to be processed, for example, <b>Appointment</b>, and the <b>RPA Appointment</b> displays.</p> <p> <b>Note:</b> Refer to section, “Helpful Function Keys and Icons” in this Guide for an explanation or description of the Toolbar Icons.</p> <div style="display: flex; align-items: center;"> <div style="margin-right: 10px;"> <p>Toolbar Icons →</p> <p>Tabs →</p> </div>  </div>
2	<p>There are four tabs across the top:</p> <ul style="list-style-type: none"> <li>• <b>Requesting Info</b></li> <li>• <b>Position Data</b></li> <li>• <b>Employee and Position Data</b></li> <li>• <b>Remarks and Address</b></li> </ul>

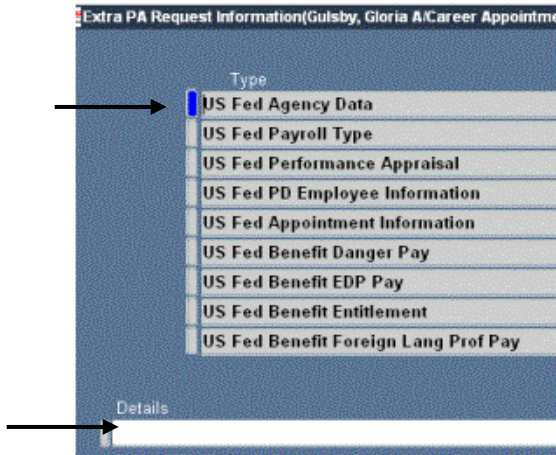

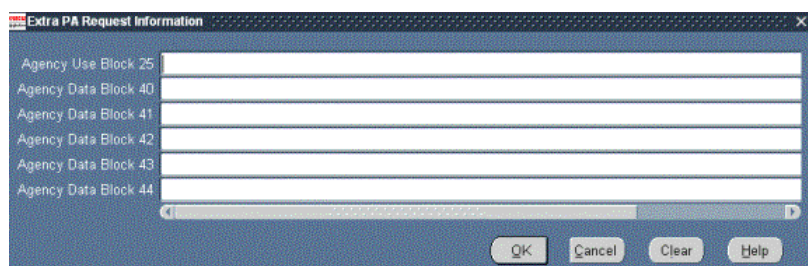

### Completing the RPA

Step	Action
1	Complete the data fields on <b>Requesting Info</b> Tab, using the “pop lists” attached to each data field.
2	Proceed to the next tab until the <b>RPA</b> is complete.
3	<b>Save.</b>

*Continued on next page*

## Request for Personnel Action (RPA), Continued

### Completing the RPA (continued)

Step	Action
4	<p>Click &lt;Extra Information&gt;. The Extra Information Flexfields display:</p> 
5	<p>Click on <b>US Fed Agency Data</b>. Click in the <b>Details</b> Box. The <b>Extra PA Request Information</b> Flexfield displays with information in the appropriate fields:</p> 
6	Click on <b>US Fed Payroll Type</b> . Complete the data entry and complete the remaining flexfields.
7	<b>Save and Route.</b>

## Workflow Inbox

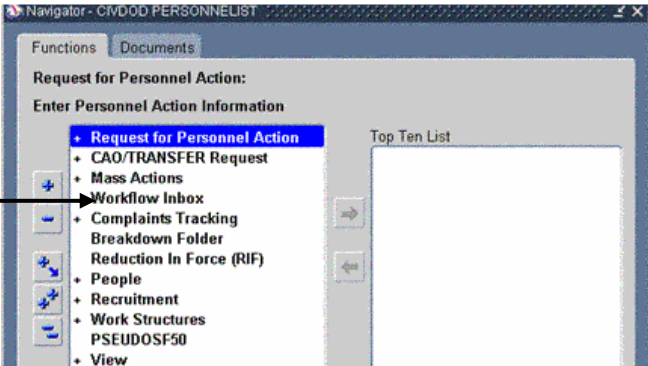

### Accessing the Workflow Inbox or Worklist

Your system administrator must add the **Workflow Inbox** to the menu for a responsibility assigned to you before you can access it and view your **Worklist**. It is used to manage your RPAs and Notifications, i.e., HR updates, WGI Notices, etc. For example, a Mass Realignment will display a notice on each employee realigned.

- It lets you choose which notifications to display and what information to display for those notifications.
- In addition to the preconfigured **Worklist** viewing options, you can create personal **Worklist** views by defining a set of filtering criteria to determine what types of notifications and properties to display.
- You can:
  - Perform one-time searches to locate notifications you want to view.
    - Save the search criteria as a personal **Worklist** view to repeat the same search later.
  - Respond to your notifications.
  - Reassign notifications to another user.
  - Request more information about a notification from another user, and define automatic notification routing rules.

**Note:** Your System Administrator can turn off notices that may fill up your viewing space in the inbox, such as notices for the manager to approve an RPA; a Personnelist to approve an RPA, and Auto WGI notices.

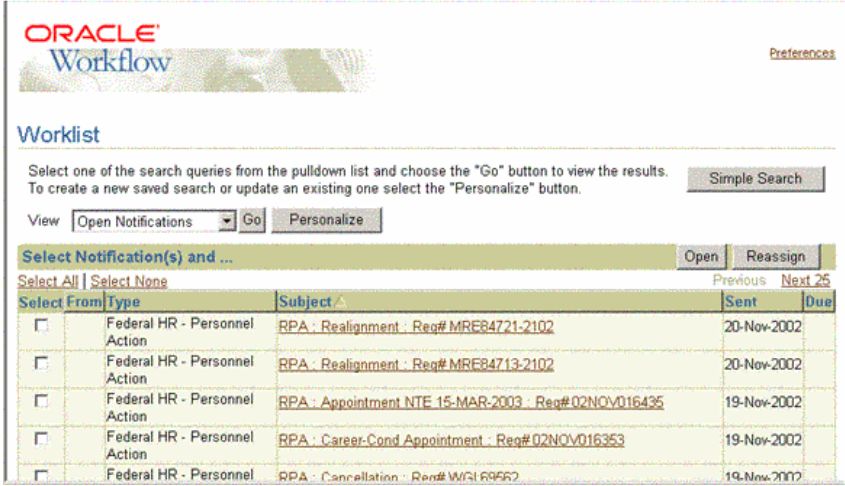

Step	Action
1	<p>On the <b>Navigator</b> Window, double click on <b>Workflow Inbox</b>.</p> 

*Continued on next page*

### Worklist Window Description

The features associated with this new inbox for viewing and responding to notifications are:

- Simple and advanced searches
- Customized views (Personalize)
- Open and reassign
- Creating routing rules to manage your notifications

Buttons/Links	Function
<b>Return to Portal</b>	To be developed.
<b>Logout</b>	To be developed.
<b>Preferences</b>	Displays a General Preference Window – not currently used.
<b>Help</b>	Assists with the window.
<b>View</b>	List of preconfigured views.
<b>Go</b>	Execute the search to review the results.
<b>Personalize</b>	Creates a custom view
<b>Simple Search</b>	Locates a one-time search of notifications that match your criteria

*Continued on next page*

## Workflow Inbox, Continued

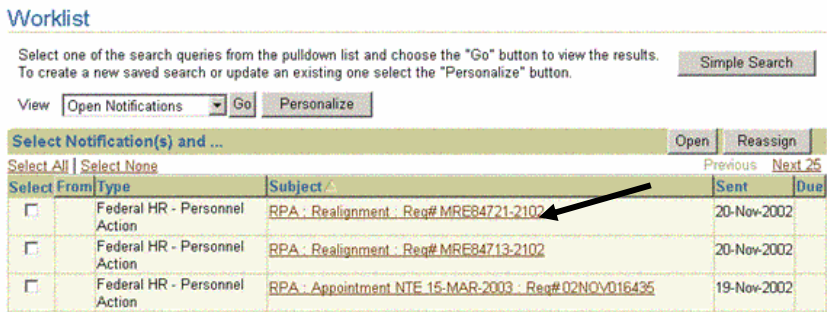

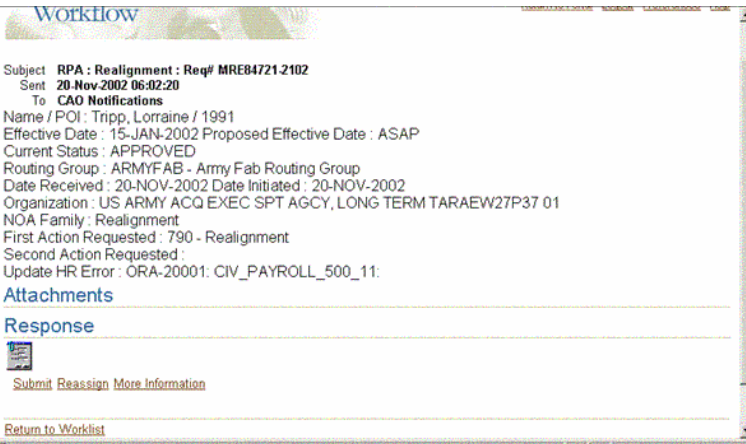

### Worklist Window Description (continued)

Buttons/Links	Function	
<b>Open</b>	Opens the selected notification.	
<b>Reassign</b>	Currently not available.	
<b>Select All</b>	Selects all notifications on the current page using check boxes.	
<b>Select None</b>	Deselects notifications.	
<b>Next</b>	Allow you to view next 25 notifications for the preconfigured views. (Customized views can be set for a different number to view.)	
<b>Columns</b>	Allows you to sort the columns by clicking on the desired column. By default, the list is sorted by sent date from most recent to oldest, and then by subject in alphabetical order. For example, click on <b>Subject</b> and the notifications are sorted alphabetically by subject, i.e., all the cancellations are listed together, and all the corrections are listed together, by <b>Sent</b> date.	
	<b>From</b>	The role from which the notification was sent.
	<b>To</b>	The role to which the notification was sent.
	<b>Type</b>	Displays name of the item type of the notification: <ul style="list-style-type: none"> <li>Federal HR-Personnel Action (RPA),</li> <li>OTA Training Request Forms.</li> </ul>
	<b>Subject</b>	Description of the notification.
	<b>Sent</b>	Date when the notification was delivered.
	<b>Due</b>	Date by which the notification should be completed.
	<b>Status</b>	Shows "Open," "Closed," or "Cancelled."

### Viewing the Details of a Notification

Step	Action
1	<p>Navigate to the full details of a notification by clicking on the notification's underlined <b>Subject</b> link.</p> 
2	<p>The <b>Notification Details</b> Window displays:</p>  <ul style="list-style-type: none"> <li>• If you revisit a notification to which you have already responded, the <b>Response</b> section indicates that the response has been submitted, and displays the response values that were submitted.</li> <li>• If a notification does not require a response, the <b>Response</b> section indicates that as well. Choose the <b>Close</b> button in the <b>Response</b> section to close the notification so that it does not appear in your <b>Worklist</b> the next time you view your open notifications.</li> </ul>

*Continued on next page*

## Workflow Inbox, Continued

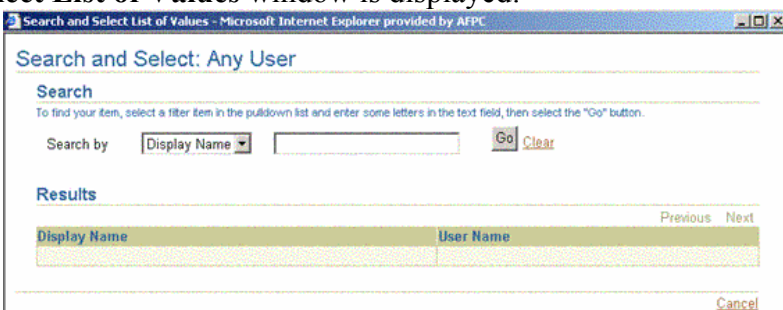

### Viewing the Details of a Notification (continued)

Step	Action
3	<p>Click on the attached form icon in the <b>Response</b> section to act on the notification.</p> 
4	<p>The <b>Launching Form</b> window displays:</p>  <p>You can choose <b>&lt;Keep Window&gt;</b> to continue displaying the launch window. Otherwise, this window automatically closes after 30 seconds.</p>
5	<p>The <b>Request for Personnel Action</b> form displays with the details of the selected notification.</p>  <p> <b>Note:</b> If the RPA does not open when selected, it might be “minimized” and you have to click on the Oracle Application at the bottom of your desktop to retrieve it.</p>
6	<p>Enter your information. <b>Save</b> and route the RPA. Or, if you need more information, close.</p>

*Continued on next page*

## Workflow Inbox, Continued

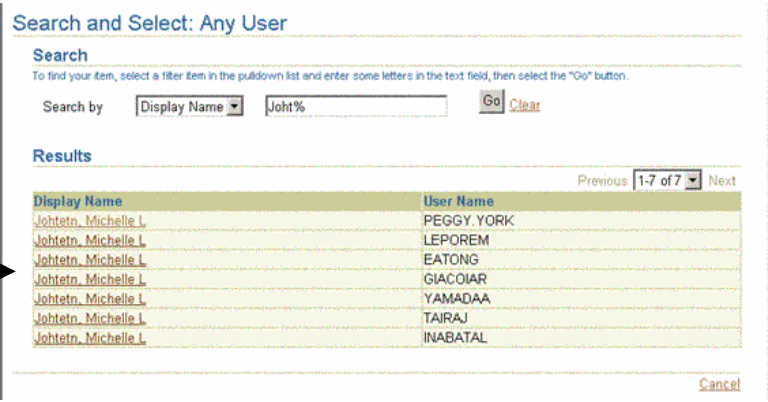

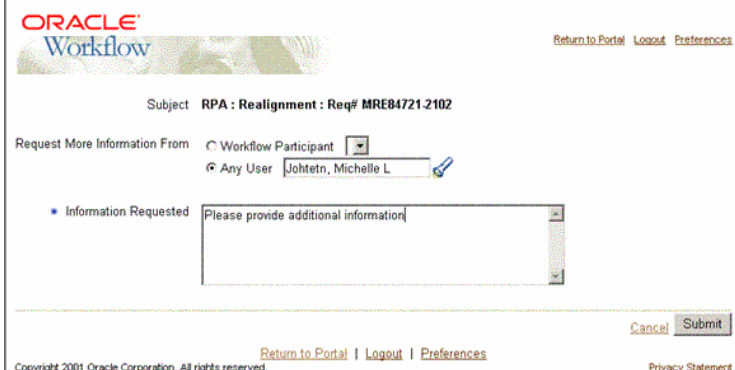

### Viewing the Details of a Notification (continued)

Step	Action
7	<p>To request additional information for an RPA, click on the <b>More Information</b> link.</p> <p><a href="#">Response</a></p>  <p><a href="#">Submit</a> <a href="#">Reassign</a> <a href="#">More Information</a></p> <p><a href="#">Return to Worklist</a></p>
8	<p>The <b>Request More Information</b> window displays:</p> 
9	<p>Select <b>Any User</b>, and click on the flashlight. The <b>Search and Select List of Values</b> window is displayed:</p> 

*Continued on next page*

## Workflow Inbox, Continued

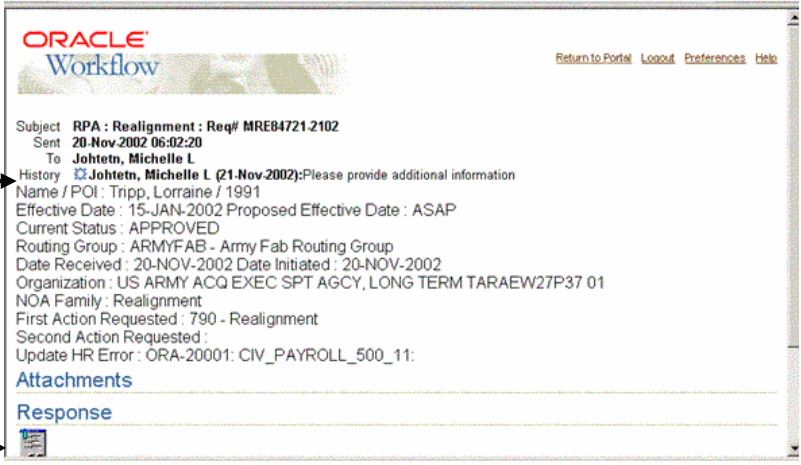

### Viewing the Details of a Notification (continued)

Step	Action
10	<p>Choose <b>Search By</b>, Display Name on the drop down list, and enter a value for the display name using the wildcard (%) to search, if necessary. Click <b>&lt;Go&gt;</b> to view the results of the search.</p> 
11	<p>In the <b>Results</b> section, select a name by clicking on the underlined <b>Display Name</b>. The <b>Request More Information</b> window displays with the selected User Name. Enter your remarks in the <b>Information Requested</b> section. This datafield is required as indicated by the asterisk.</p> 

*Continued on next page*

## Workflow Inbox, Continued

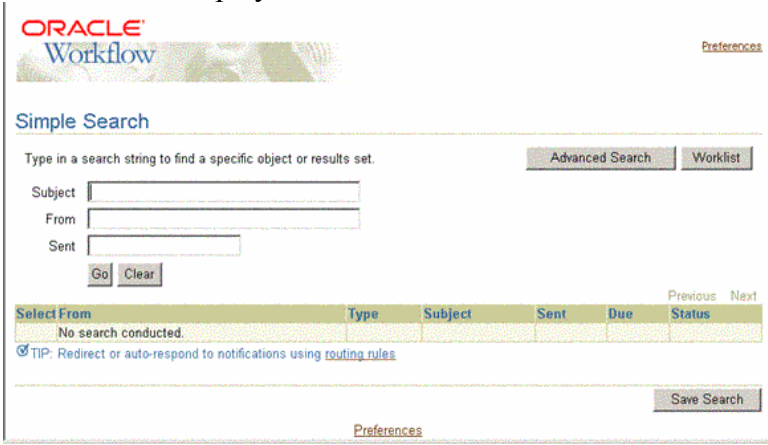

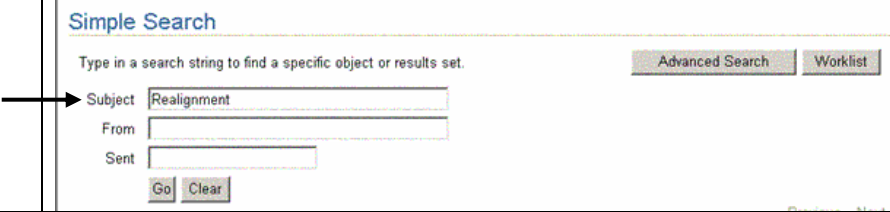

### Viewing the Details of a Notification (continued)

Step	Action
12	<p>Click &lt;<b>Submit</b>&gt;. The request is sent to the specified user. The user opens up the notification and the following displays:</p>  <p>This <b>History</b> line shows who the request was sent to along with comments from the sender. The receiver then clicks on the <b>Response Icon</b>.</p> <p>You can also select &lt;<b>Cancel</b>&gt; to return to the previous page without sending the request. After you request more information for a notification, the notification does not appear in your <b>Worklist</b> as an open notification until the user responds to your request. However you can still view the notification by selecting the view <b>Notifications From Me</b> from the Worklist window.</p> <ul style="list-style-type: none"> <li>• If you do not want to wait for the additional information requested, you can respond to the notification using the Response section of the Notification Details page. In this case, your pending request is cancelled.</li> <li>• If you want to request more information from a different user, you can submit a new request using the &lt;<b>More Information</b>&gt; button in the <b>Response</b> section of the Notification Details page. In this case, your initial request is replaced by the new request, and only the user to whom you sent the new request can respond with more information.</li> </ul>

*Continued on next page*

## Workflow Inbox, Continued

### Simple Search

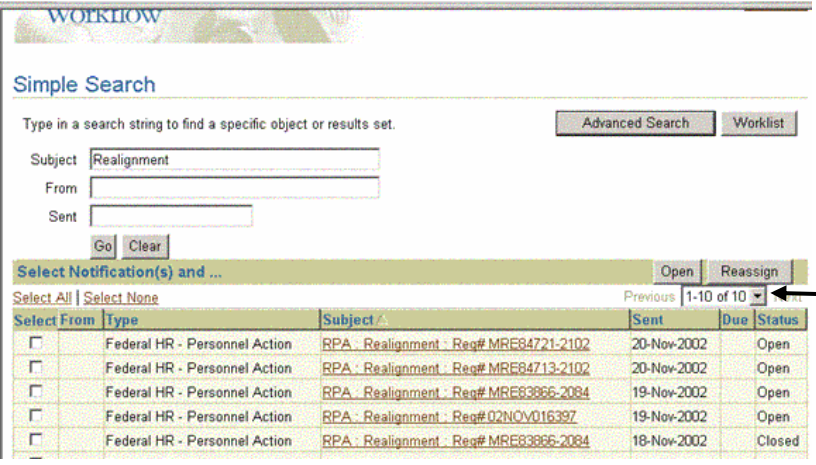

Step	Action
1	<p>On the <b>Worklist</b> Window, click &lt;<b>Simple Search</b>&gt;. The <b>Simple Search</b> Window displays:</p> 
2	<p>Enter your search criteria to locate specific notifications. The search options are <b>Subject</b>, <b>From</b>, and <b>Sent</b>. For example, in the <b>Subject</b> data field enter “Realignment”, “Cash Awards,” or “Corrections,” etc. The <b>Simple Search</b> Window displays with the <b>Subject</b> data field populated (“Realignment” in this example).</p> 
3	Click < <b>Go</b> >.

*Continued on next page*

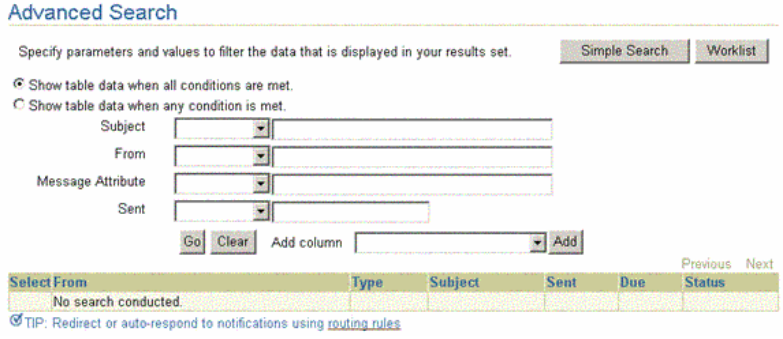

## Workflow Inbox, Continued

### Simple Search (continued)

Step	Action
4	<p>The <b>Simple Search</b> Window displays with the notifications that match your criteria including those that are closed. Click <b>&lt;Save&gt;</b> to save your search for a future view. If this search does not provide enough parameters, you can go to the <b>&lt;Advanced Search&gt;</b> for additional features.</p>  <p><b>Note:</b> The total number of records that match your criteria is indicated above the notifications list.</p>

### Advanced Search

Step	Action
1	<p>On the <b>Simple Search</b> Window, click <b>&lt;Advanced.&gt;</b> The <b>Advanced Search</b> Window displays:</p> 

*Continued on next page*

## Workflow Inbox, Continued

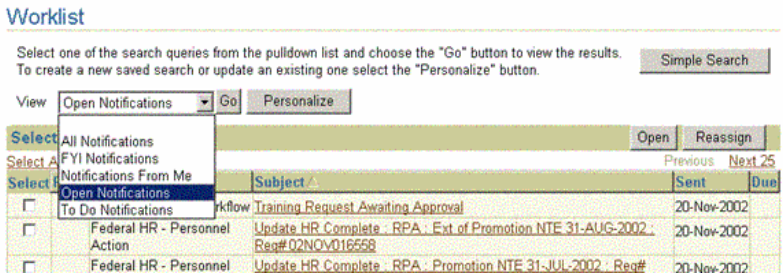

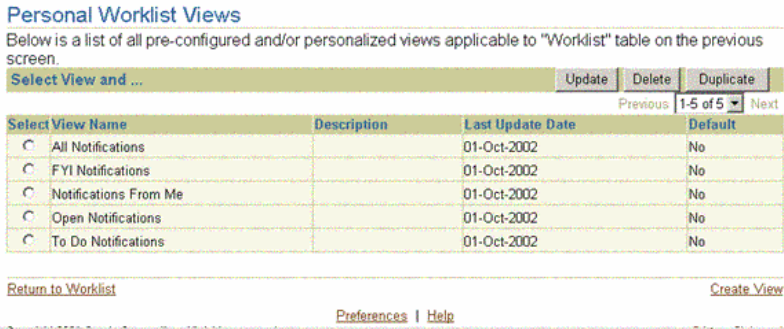

### Advanced Search (continued)

Step	Action
2	<p>Select one of the options for locating specific notifications. Select one of the two radio buttons:</p> <ul style="list-style-type: none"> <li>“Show table data when all conditions are met.” (Results in notifications that only met all of your criteria.)</li> <li>“Show table data when any condition is met.” (Results in notifications that match at least one of your search criteria.)</li> </ul>
3	<p>To select notifications that meet all conditions, click the first radio button.</p>
4	In the <b>Subject</b> drop down list, select “contains.”
5	Enter “Realignment” in the subject data field.
6	In the <b>Sent</b> drop down list, select “after” and enter the date.
7	<p>Click &lt;Go&gt;. The <b>Advanced Search</b> result displays:</p>
8	<p>You can save this search criteria for future use by clicking &lt;<b>Save Search</b>&gt; at the bottom of the <b>Worklist</b>. The <b>Create View</b> Window displays. Follow the procedures for creating a view if desired. See <b>Personalized View</b> in this section for details.</p>

*Continued on next page*

## Workflow Inbox, Continued

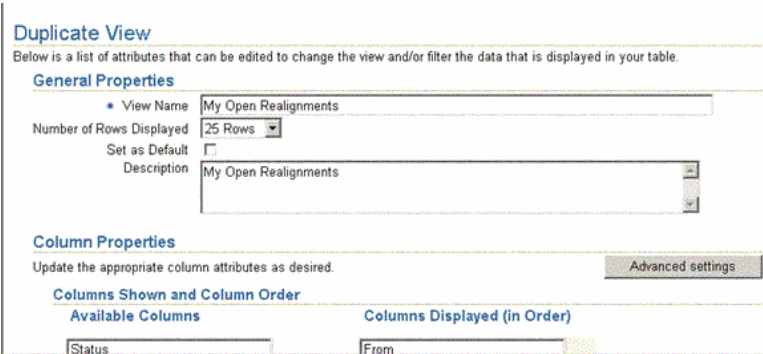

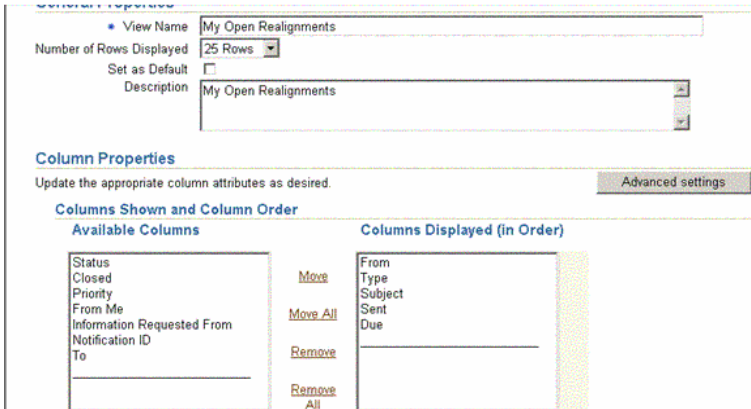

### Personalized View

Step	Action
1	<p>The <b>Worklist</b> Window defaults to “Open Notifications.” There are four other preconfigured views on the drop down list:</p> <ul style="list-style-type: none"> <li>• All Notifications</li> <li>• FYI Notifications (Includes those not routed for approval)</li> <li>• Notifications From Me (Only those you generated)</li> <li>• To Do Notifications (Require actions)</li> </ul> <p>Example:</p>  <p>The screenshot shows the 'Worklist' window. At the top, there's a 'View' dropdown menu currently set to 'Open Notifications'. Below it, a list of five options is shown: 'All Notifications', 'FYI Notifications', 'Notifications From Me', 'Open Notifications' (highlighted with a blue bar and an arrow), and 'To Do Notifications'. To the right of the dropdown are 'Go' and 'Personalize' buttons. Below the dropdown is a table with columns: 'Select', 'Subject', 'Sent', and 'Due'. The table contains three rows of notifications, each with a checkbox in the 'Select' column.</p>
2	<p>Use any of the preconfigured views, or create your own view. Click &lt;Personalize&gt;. The <b>Personal Worklist Views</b> Window displays:</p>  <p>The screenshot shows the 'Personal Worklist Views' window. It has a title bar and a subtitle: 'Below is a list of all pre-configured and/or personalized views applicable to "Worklist" table on the previous screen.' Below this is a table with columns: 'Select View Name', 'Description', 'Last Update Date', and 'Default'. There are five rows of views: 'All Notifications', 'FYI Notifications', 'Notifications From Me', 'Open Notifications', and 'To Do Notifications'. At the bottom right, there is a 'Create View' button with an arrow pointing to it.</p>

*Continued on next page*

## Workflow Inbox, Continued

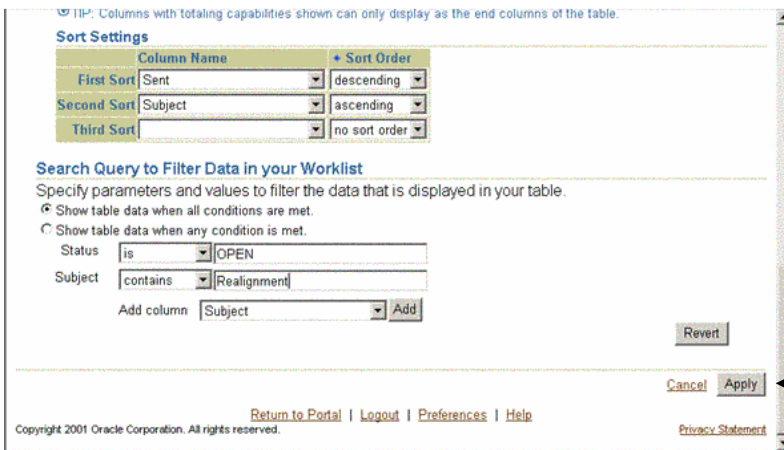

### Personalized View (continued)

Step	Action
3	<ul style="list-style-type: none"> <li>You can duplicate one of the preconfigured views by selecting one of the views and clicking &lt;<b>Duplicate</b>&gt;.</li> <li>Or you can create your own view, by clicking on the <b>Create View</b> Link at the bottom of the window.</li> </ul>
4	<p>To duplicate a preconfigured view, select the view to duplicate, i.e. Open Notifications. Click &lt;<b>Duplicate</b>&gt;. The Duplicate View Window displays:</p> 
5	<p>In the <b>General Properties</b> section, enter a <b>View Name</b>, <b>Number of Rows</b> to be displayed, and a <b>Description</b>. If you would like this view to be the default view when opening the Worklist, check the <b>Set as Default</b> box (currently not working.)</p> <p>Under <b>Column Properties</b>, update the columns to be displayed, and the order in which they are displayed, as needed.</p>

### Creating Routing Rules (continued)

Step	Action
5	<p>Click &lt;Next&gt;. The <b>Rule Response</b> Window displays:</p> 
6	<p>Enter values in the <b>Start Date</b> and <b>End Date</b> fields to specify the period that this rule should be active.</p> <ul style="list-style-type: none"> <li>• If you leave the <b>Start Date</b> blank, the rule is effective immediately.</li> <li>• If you leave the <b>End Date</b> blank, the rule is effective indefinitely.</li> </ul> <p> <b>CAUTION:</b> Since you can define different rules for the same notifications to be effective at different time, the system allows you to define multiple rules for the same notifications.</p> <ul style="list-style-type: none"> <li>• You should be careful to ensure that rules for the same notifications do not overlap in their effective dates.</li> <li>• If multiple rules are effective for the same notification, Workflow picks one rule at random to apply.</li> </ul>
7	<p>In the <b>Message</b> field, enter any text that you want to append to the notification when the rule is applies.</p> <p> <b>Note:</b> “Reassign to” is currently under development.</p>
8	<p>Choose:</p> <ul style="list-style-type: none"> <li>• &lt;Submit&gt; to save the rule,</li> <li>• &lt;Cancel&gt; to return to the Worklist without creating or updating the rule, or,</li> <li>• &lt;Back&gt; if you are creating a new rule, to return to the previous page.</li> </ul>

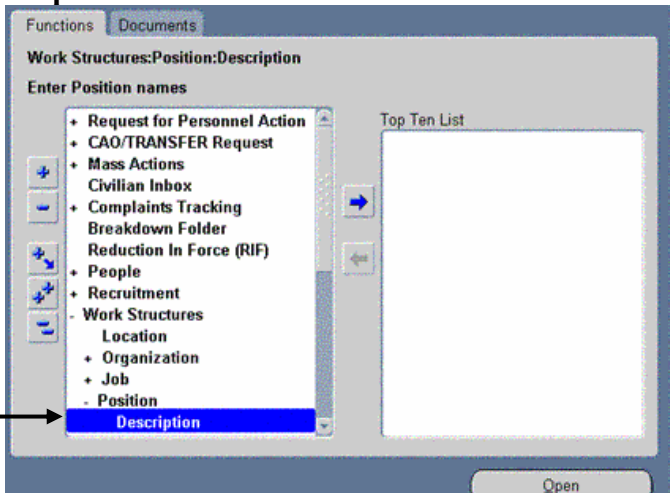

## Position Window

### Introduction

There are new features to the Position area:

- Position history is now date tracked. It allows you to:
  - Query the position at a certain date,
  - View the past changes made to the position,
  - Make multiple changes on the same day.
    - Correct – Changes back to date the position was established;
    - Update – Changes from this date forward.
- Position **Type** on the **Position Details** Tab contains new data:
  - **Single Incumbent** (Defaults to all new positions)
  - **None** (Reflected in converted records – need to be changed to Single Incumbent)
  - **Pooled** (Not currently used)
  - **Shared** (Not currently used)
- On the **Hiring Information** Tab, **Full Time Equivalent** (FTE) and **Headcount** default to “1.” (You can change the FTE for reports.)
- Updatable data fields are yellow and white; gray fields are not used by DoD.
- When you delete positions, the sequence numbers are recycled and are used again.
- **Position Name** is now **Date Effective Name**, so you can use date tracking and view the position name as of that date.

### Accessing the Position Window

Step	Action
1	<p>On the <b>Navigator</b> Window, click <b>Work Structure</b> → <b>Position</b> → <b>Description</b>.</p> 

*Continued on next page*

## Position Window, Continued

---

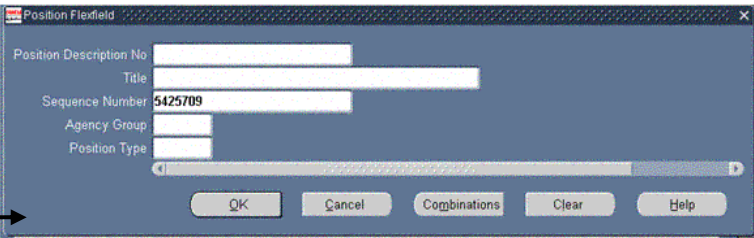

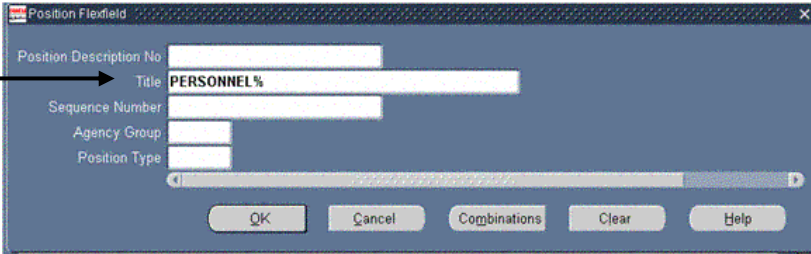

### Accessing the Position Window (continued)

Step	Action
2	<p data-bbox="548 457 998 493">The <b>Find Positions</b> Form displays:</p>  <p data-bbox="548 783 1401 888">This form is a new feature provides you an easy method to retrieve a blank <b>Position</b> Window for building a new position, and for querying current positions in the data base.</p> <ul data-bbox="613 898 1369 1003" style="list-style-type: none"> <li>• You can query on any of the data fields associated with the <i>Name</i> (now <i>Date Effective Name</i>) data fields.</li> <li>• You can use the <i>Sequence Number</i>.</li> </ul> <p data-bbox="548 1014 1401 1075">You don't have to use the periods to separate data, i.e., ". ## Copying a Position

### Introduction

Position Copy reduces the time and effort required to create positions and ensures accurate data. It allows you to:

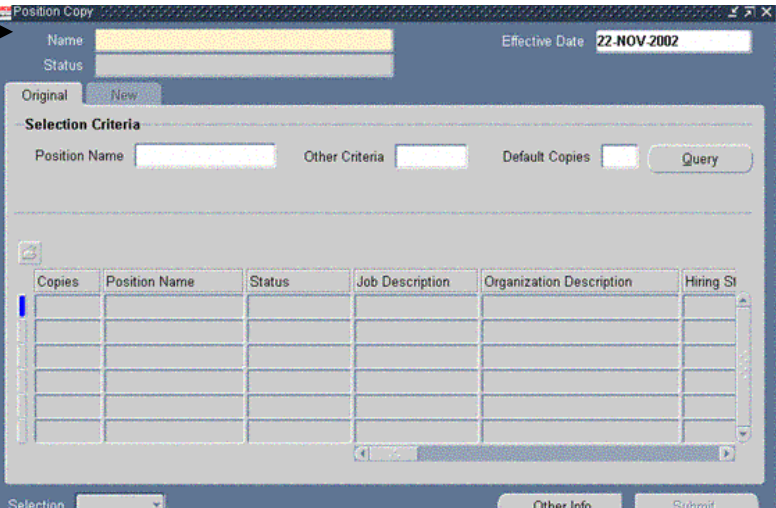

- Specify criteria for finding and selecting positions.
- Use existing positions and create new ones making minor or major changes to the position definition.
  - Copy a specific position or retrieve all positions that correspond to the criteria.
- Preview the results before creating the final copies.
- Save the set of positions (unlimited) and continue working on it at another time, i.e., when you have received all the information required to complete the position definitions.

**Note:** It is now possible to copy invalid positions. Be sure the status is “Valid” before copying.

Use the following steps to copy and create multiple positions.

### Accessing the Position Copy Window

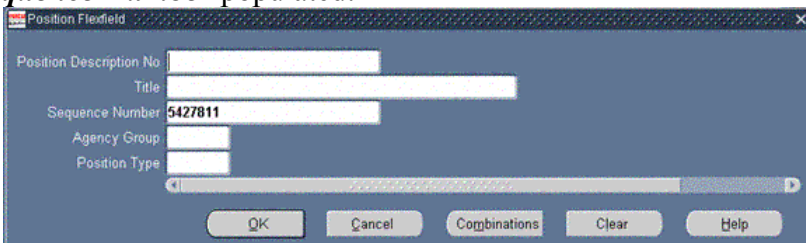

Step	Action
1	<p>On the <b>Navigator List</b>, click <b>Work Structures</b> → <b>Position</b> → <b>Position Copy</b>. The <b>Position Copy</b> Window displays with two tabs, <b>Original</b> and <b>New</b>:</p> 

*Continued on next page*

## Copying a Position, Continued

### Entering Selection Criteria

You can copy a specific position or retrieve all positions that correspond to the criteria.

Step	Action
1	On the <b>Position Copy</b> Window, enter a name in the <b>Name</b> data field to identify the set of position(s) to be copied. Enter a name even if you are going to copy only one position. For Example, use your initials, date, <b>Position Title</b> , etc.
2	The <b>Effective Date</b> populates with the current date. <ul style="list-style-type: none"> <li>It applies to all the positions that you query. If you do not enter a date, the system uses the current date.</li> <li>Change the <b>Effective Date</b> if you want a date that corresponds to the position to be copied.</li> </ul>
3	On the <b>Original</b> Tab, under selection criteria, click in <b>Position Name</b> data field. The <b>Position</b> Flexfield displays with the <b>Sequence Number</b> populated: 
4	Delete the <b>Sequence Number</b> . (In the future, the <b>Sequence Number</b> will not populate at this stage. It is a reported error being fixed.)

### Selecting a Position to Copy

There are three ways to query a position on the **Position Flexfield**. You may:

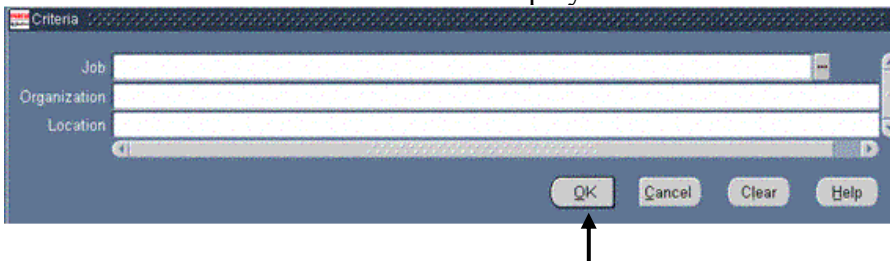

- Enter part of the data, with or without using the **<Combinations>** taskflow button:
  - Entering a **Sequence Number** produces only one position;
  - Entering a **Title** produces a list of all positions with that title;
- Select all positions by **Job**, **Organization**, or **Location**:
  - Entering a **Job** and an **Organization**, i.e., you can produce a list of all engineers in a certain organization.
- Enter information in all the data fields.

*Continued on next page*

## Copying a Position, Continued

### Query by Sequence Number

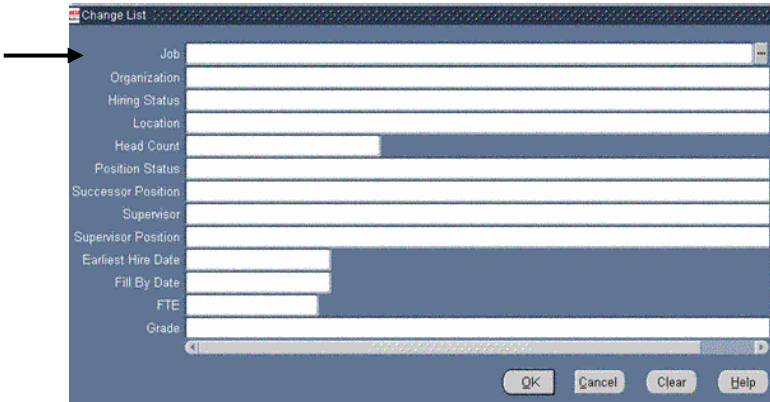

Follow these steps to retrieve a single position, using the *Sequence Number* of the position:

Step	Action
1	On the <b>Position</b> Flexfield, delete the <b>Sequence Number</b>
2	Enter the <i>Sequence Number</i> you are querying.
3	Click <OK> The <b>Criteria</b> Flexfield displays. 
4	Click <OK>. The <b>Position Copy</b> Window displays with “Pending Query” in the <i>Status</i> data field at the top, and <i>Position Name</i> populates with the <i>Sequence Number</i> under the <b>Selection Criteria</b> .
5	Enter the number of copies needed in the <i>Default Copies</i> data field.
6	Click <Query>. The <b>Position Copy</b> Window displays with “Retrieved Original Record(s)” in the <i>Status</i> data field. The position data populates in the columns: <b>Copies, Position Name, Status, Job Description, Organization Description, Hiring Status</b> , etc.  <b>Note:</b> The number of copies you entered displays under <i>Default Copies</i> data field and the <b>Copies</b> Column.

*Continued on next page*

## Copying a Position, Continued

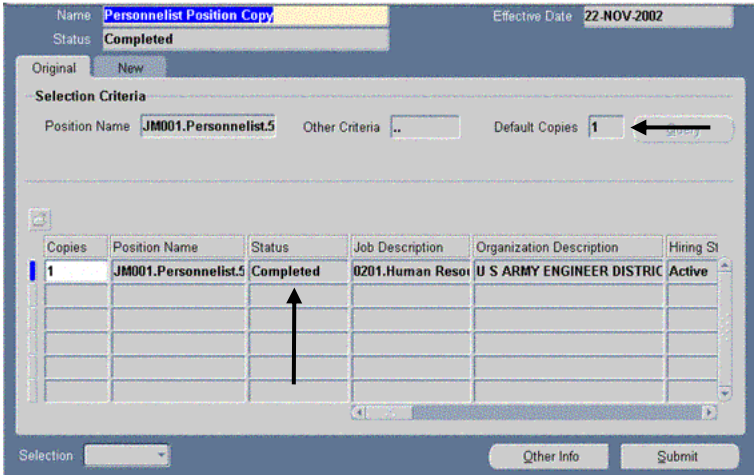

### Completing the Position Copy

Step	Action
1	Still on the <b>Position Copy</b> Window, click on the <b>New</b> Tab.
2	Click in the <b>Change List</b> field. The <b>Change List</b> Window displays:  <p>Change any of the data fields that apply to the new position(s). Click &lt;OK&gt;. Note: <b>Job</b> is currently under development.</p>
3	Click < <b>Create New</b> > on the upper right side.
4	A Note Message Box displays: “Pending record(s) created on New Tab.” Click <OK>.
5	The <b>New</b> Tab displays with the Position data populated in <b>Position Name</b> data field and the Columns populate with the number of positions to copy. The <b>Status</b> data field at the top populates with “Pending New Record(s).”
6	Click < <b>Submit</b> > at the bottom of the window.
7	A Note displays: Transaction applied and concurrent request (#) submitted.
8	If the position copy is in the status of “Error New Record(s),” follow procedures for <b>Viewing the Process Log</b> . <b>Note:</b> <ul style="list-style-type: none"> <li>When the position copy is submitted, the system refreshes the position data with the exception of the <b>Change List</b> items and any manual changes you’ve made. It refreshes the data based on the <b>Effective Date</b>.</li> <li>The system validates the position using the same validation process it does when you create a position with the <b>Position</b> Window.</li> <li>You can query the new position in the <b>Position</b> Window and continue making further changes, for example, in <b>Position Extra Information</b>.</li> </ul>

*Continued on next page*

## Copying a Position, Continued

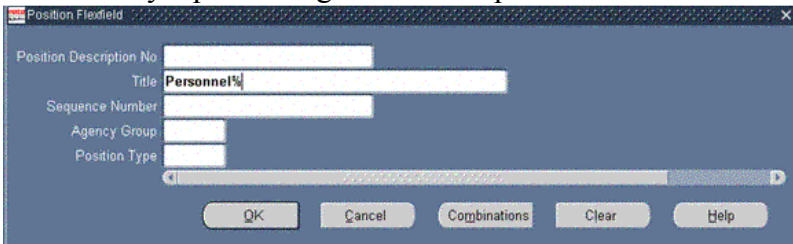

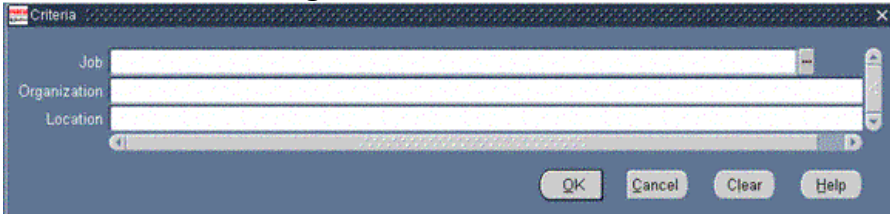

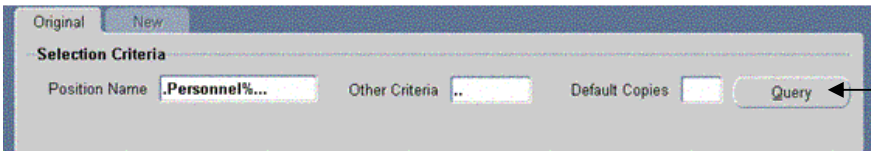

### Completing the Position Copy (continued)

Step	Action
9	<p>Re-query the position copy name (Personnelist Position Copy) to refresh the status. Press <b>F11</b>, type in Personnelist%, <b>CTRL+F11</b>. The status changes to “Completed.”</p> 

*Continued on next page*

## Copying a Position, Continued

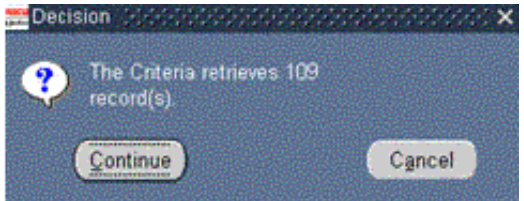

**Query by Title** Follow these steps to retrieve a list of positions, using the **Title** of the position:

Step	Action
1	On the <b>Position</b> Flexfield, delete the <b>Sequence Number</b>
2	<p>Move the cursor to the <b>Title</b> data field and enter part of a position title followed by a percent sign. For example: "Personnel%."</p>  <p><b>Note:</b></p> <ul style="list-style-type: none"> <li>The fields are case sensitive. If the Title was built with all caps, you must use all caps to retrieve it.</li> <li>Entering "Personnel" will get all the personnel positions in the database. You can select your component on the <b>Criteria</b> Window below.</li> </ul>
3	Click <OK>.
4	<p>The <b>Criteria</b> Window displays to further define your search. For example, if you want only Army positions in a particular UIC, you enter %UIC% in the <b>Organization</b> data field.</p>  <p>These fields are optional. Click &lt;OK&gt; to continue.</p>
5	<p>The <b>Position Copy</b> Window displays with the Status populated with "Pending Query." On the <b>Original</b> tab, click &lt;Query&gt;.</p> 

*Continued on next page*

## Copying a Position, Continued

### Query by Title (continued)

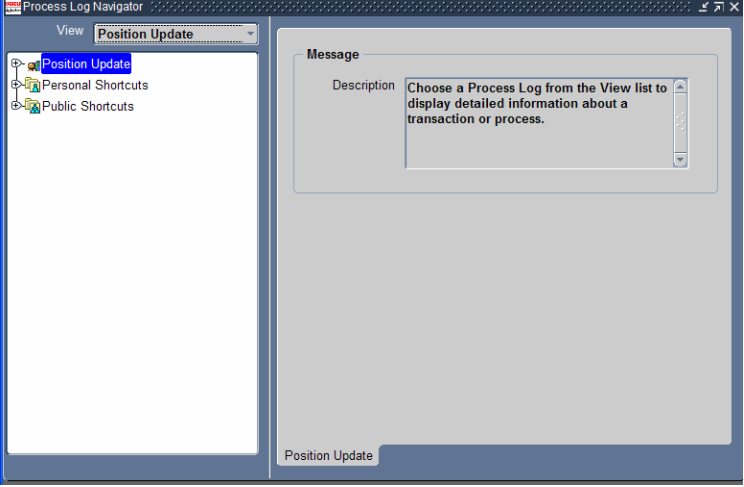

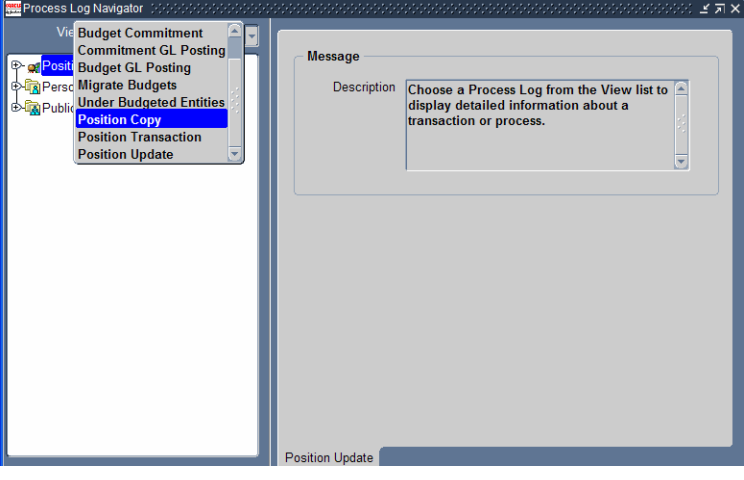

Step	Action
6	<p>A <b>Decision</b> Message Box displays the number of records in the query:</p>  <p>If you want to narrow the search, click &lt;<b>Cancel</b>&gt; and return to the <b>Original</b> Tab and enter more criteria, otherwise, click &lt;<b>Continue</b>&gt;.</p>
7	<p>The <b>Position Copy</b> window displays with <b>Status</b> populated with “Retrieved Original Record(s).”</p> <ul style="list-style-type: none"> <li>On the <b>Original</b> Tab, a list of retrieved positions display in the columns. The <b>Copies</b> Column defaults to “1” copy for each retrieved position.</li> <li>To deselect the positions you do not want to copy, click the <b>Selection</b> down arrow at the bottom left hand corner.</li> <li>Click &lt;<b>None</b>&gt;.</li> </ul>
8	<p>All positions are <b>not</b> selected, and the number of copies change to zero. Change the number of copies on the position(s) you want to copy, by typing in the number, i.e. “2.”</p>
9	<p>Follow the steps in <b>Completing the Position Copy</b> in this section to complete the process.</p>

*Continued on next page*

## Copying a Position, Continued

### Viewing the Process Log

If the status is “Error New Record(s),” use the **Process Log** to view the error message associated with the position copy. The **Process Log** also includes **Position Copy** transactions that completed successfully.

Step	Action
1	<p>On the <b>Navigator List</b>, click <b>Federal Maintenance Forms</b> → <b>Process Log</b>. The <b>Process Log Navigator</b> Window displays:</p> 
2	<p>Under <b>View</b>, click on the drop down list to select <b>Position Copy</b> view.</p> 

*Continued on next page*

## Oracle Training Administration (OTA)

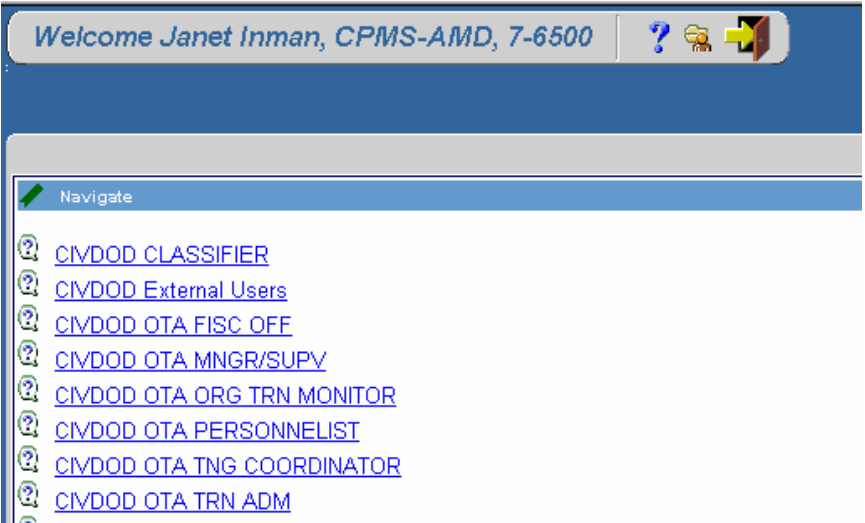

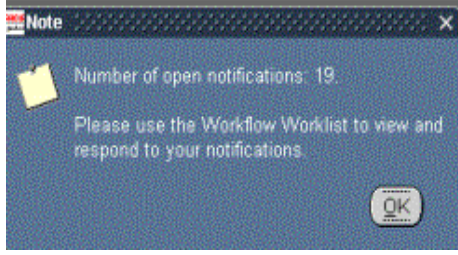

### Purpose

This section shows you how to navigate through OTA.

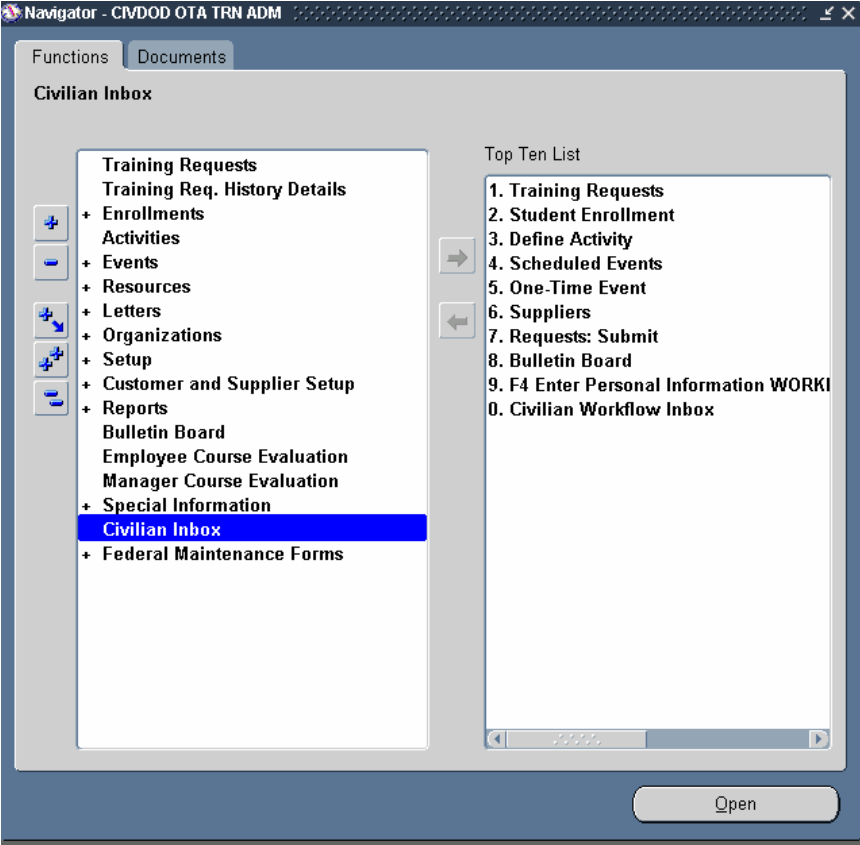

**Note:** You must have an OTA Secure User role in order to process actions in OTA.

### Welcome Window

Step	Action
1	Follow steps 1-4 under <b>Logging In</b> at the beginning of this document.
2	<p>On the <b>Welcome</b> Window, select one of the six OTA roles, and double click or click <b>&lt;Open&gt;</b>. For example: "CIVDOD OTA PERSONNELIST."</p> 
3	<p>If you have actions in your inbox, a notification displays:</p>  <p>Click <b>&lt;OK&gt;</b>. Refer to the <b>Civilian Inbox</b> section in this guide to work these actions after you open the <b>Navigation</b> List.</p>

## OTA Navigator Window

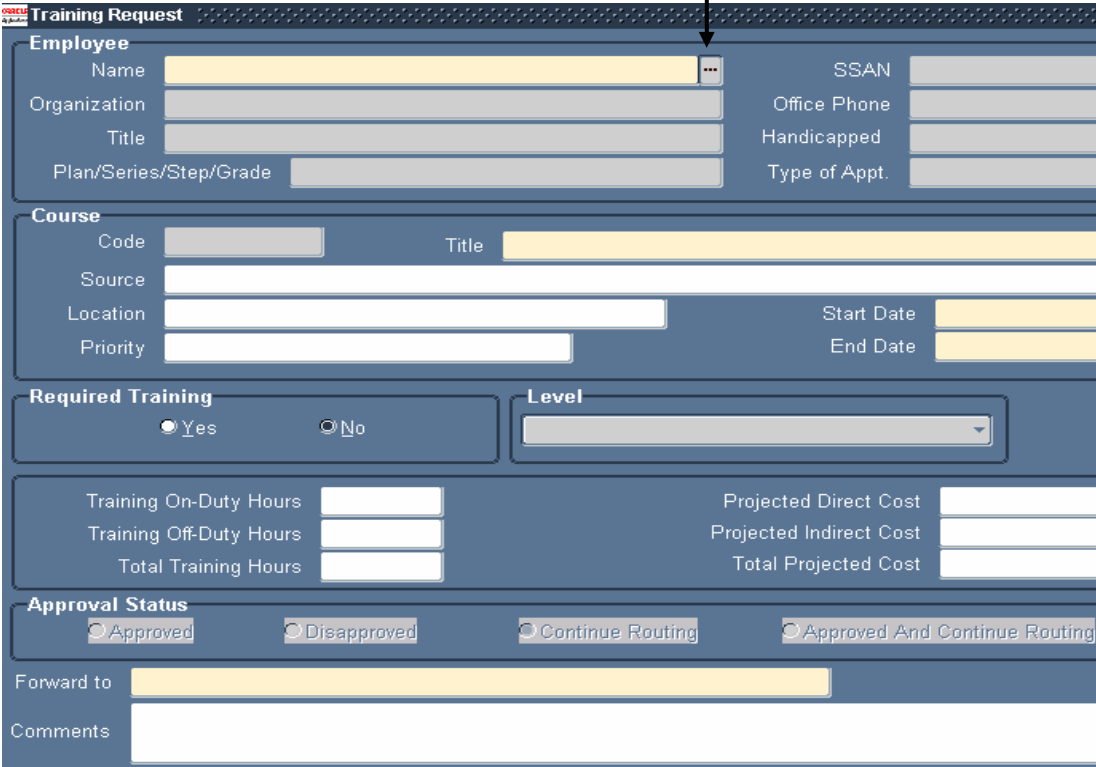

### Navigator Window

Step	Action
1	<p>The <b>Navigator</b> Window displays with two tabs (<b>Functions</b> and <b>Documents</b>). <b>Documents</b> is not currently used by DoD. The list of functions is the starting point to process training actions:</p>  <p>The screenshot shows the 'Navigator - CIVDOD OTA TRN ADM' window. It has two tabs: 'Functions' and 'Documents'. The 'Functions' tab is selected. Below the tabs, there is a section titled 'Civilian Inbox'. On the left side of this section, there is a list of functions with expand/collapse icons. The functions listed are: Training Requests, Training Req. History Details, + Enrollments, Activities, + Events, + Resources, + Letters, + Organizations, + Setup, + Customer and Supplier Setup, + Reports, Bulletin Board, Employee Course Evaluation, Manager Course Evaluation, + Special Information, <b>Civilian Inbox</b> (highlighted in blue), and + Federal Maintenance Forms. On the right side of the 'Civilian Inbox' section, there is a 'Top Ten List' with a list of 10 items: 1. Training Requests, 2. Student Enrollment, 3. Define Activity, 4. Scheduled Events, 5. One-Time Event, 6. Suppliers, 7. Requests: Submit, 8. Bulletin Board, 9. F4 Enter Personal Information WORKI, and 10. Civilian Workflow Inbox. At the bottom right of the window, there is an 'Open' button.</p>
2	<p>You may click on the plus sign to expand the functions and the minus sign to contract them. Double click on the item to start a process, click <b>&lt;Open&gt;</b>, or click the number of the item.</p>
3	<p>To set up a <b>Top Ten List</b> (displayed in Step 1 above) of your most frequently performed actions, highlight the item on the list and click the middle arrow key to the right. For example: Highlight <b>Civilian Inbox</b> and click the arrow key. The <b>Top Ten List</b> populates with “10. Civilian Workflow Inbox.”</p>

## OTA – Training Request Form

### Completing the Training Request Form (TRF)

Step	Action
1	Select an OTA Responsibility.
2	<p>On the <b>Navigator</b> Window → <i>Training Requests</i> → &lt;Open&gt;. The <b>Training Request</b> Window displays.</p> 

*Continued on next page*

## OTA – Training Request Form, Continued

### Completing the Training Request Form (TRF) (continued)

Step	Action	
3	With your cursor in the <b>Name</b> data field, click the LOV to select the employee name, remaining region auto populates, and complete the following data fields:	
	<b>Data Field</b>	<b>Action/Description</b>
	Title	Click the LOV to select the course ( <b>required</b> ). <b>Code</b> auto populates.
	Source	Click the LOV or type in.
	Location	Click the LOV or type in.
	Priority	Click the LOV or type in.
	Start/End Dates	Click the LOV or type in ( <b>required</b> ).
	Required Training	Under development, currently not linked.
	Level	Select level you are as the initiator of the TRF. Depending on the level, approval and routing buttons are opened or closed.
	Hours	Enter on and off-duty (optional). <b>Total</b> auto-populates. (Use <b>Tab</b> Key to navigate)
	Cost	Enter dollar amounts (optional). <b>Total</b> auto populates. (Use <b>Tab</b> Key)
<b>Approval Status Buttons:</b>		
4	<b>Forward To</b> - Click the LOV or type in the name of the person to route the TRF to. This must be someone with an Inbox. You can save the action in your Inbox by routing it to yourself to complete later.	
5	<b>Comments</b> - Free flow entry up to 4 lines or 2000 characters	
	<b>Approved and Continue Routing</b>	Normally the first stage. <b>Note:</b> You cannot initiate and approve the TRF in the same action, it must be routed
	<b>Continue Routing</b>	Route if you are not the final approver
	<b>Disapproved</b>	Stops the action on the TRF
	<b>Approved</b>	Final action – <b>no changes may be made once saved.</b>

*Continued on next page*

## OTA – Training Request Form, Continued

---

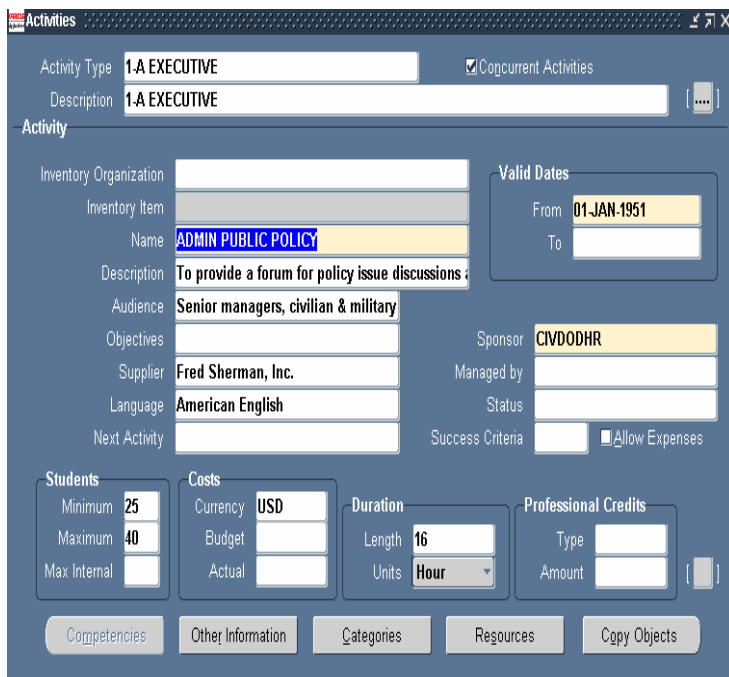

### Completing the Training Request Form (TRF) (continued)

Step	Action
6	Click <b>Save</b> on the Toolbar.
	<b>Notes:</b> <ul style="list-style-type: none"><li>• &lt;<b>Approved</b>&gt; or &lt;<b>Disapproved</b>&gt; buttons are the final action on the TRF. No further changes can be made. You must route the final TRF to the initiator.</li><li>• To complete additional TRFs for the same title, select the employee name to populate the <b>Name</b> Region then click <b>Shift+F5</b> to populate the remaining fields.</li><li>• Query for completed TRFs by clicking <b>F11</b> on the blank name field.</li><li>• A TRF must be initiated in order to print a DD Form 1556. The TRF populates the person data. It may not be necessary to initiate a TRF for on-site training.</li></ul>

---

## OTA – Defining an Activity

### Defining an Activity

Step	Action
1	Select an OTA Responsibility – TC, TM, OTA Personnelist, or Trng Adm.
2	On the <b>Navigator Window</b> → <b>Activities</b> → <b>&lt;Open&gt;</b> .
3	<p>The <b>Activities</b> Window displays.</p> 
4	<p>Query in the <b>Activity Type</b> data field (<b>F11</b>) for the OPM Course Types to display. Use the ↑ or ↓ keys on the keyboard to tab through the activity types.</p> <p> <b>Note:</b> These Activity Types cannot be modified by the User.</p>
5	Associated Activity names and descriptions display in the <b>Activity Region</b> . Use the ↑ or ↓ keys to tab through the activity names. If you do not locate an activity that meets your needs, you need to “define” a local activity using your Component’s naming conventions.

*Continued on next page*

## OTA – Defining an Activity, Continued

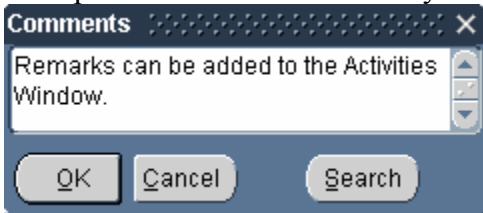

### Defining an Activity (continued)

Step	Action																												
6	<p>In the <b>Activity Region</b>, with your cursor in the <b>Name</b> data field, click the <b>New Record</b> button (green cross) and complete the following data fields:</p> <table> <tr> <th>Data Field</th><th>Action/Description</th></tr> <tr> <td><b>Name</b></td><td>Type in (up to 60 characters)</td></tr> <tr> <td><b>Name Description</b></td><td>Type in (up to 2000 characters)</td></tr> <tr> <td><b>Valid Dates</b></td><td>Auto populates the start (<b>From</b>) date. ## OTA - Creating a One-Time Event, Continued

---

### Creating the One-Time-Event Window (continued)

Step	Action
1	Complete the DDF, it is the same one which is on the <b>Scheduled Event</b> .
2	Click <OK> and <b>Save</b> your action.
3	<p>You can now enroll students or notify Training Coordinators/Monitors through the <b>Bulletin Board</b>, E-mail, etc., to enroll students in Events allocated. Alerts are currently being developed.</p> <p> <b>Notes:</b></p> <ul style="list-style-type: none"> <li>• The OTA Trng Adm must turn on <b>Submit One-Time Event Update HR Report</b> before this process works. This action is required once at initial deployment or when you are ready to use this process.</li> <li>• Users do not need to build an <b>Activity</b> before creating a One-Time Event.</li> <li>• Employees enrolled in <b>One-Time Events</b> do not require evaluations. Once their <b>Event</b> date ends, completions flow automatically to Oracle HR.</li> <li>• Create additional <b>One-Time Events</b> with new times, dates, or centers by clicking the <b>New Record</b> Button on the Toolbar and pressing <b>Shift+F5</b> to populate each data field except the DDF.</li> </ul>

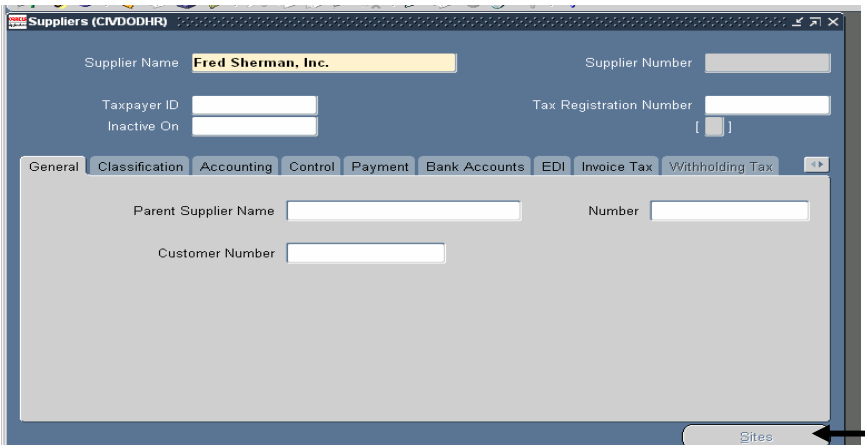

---

## OTA - Creating a Local Supplier

### Creating a Local Supplier

This process is only necessary if the supplier is not on the LOV. The DD1556 picks up the location of the training from the **Scheduled Event**. If your vendor provides training at various **Locations**, use Quick Codes to add them to the LOV.

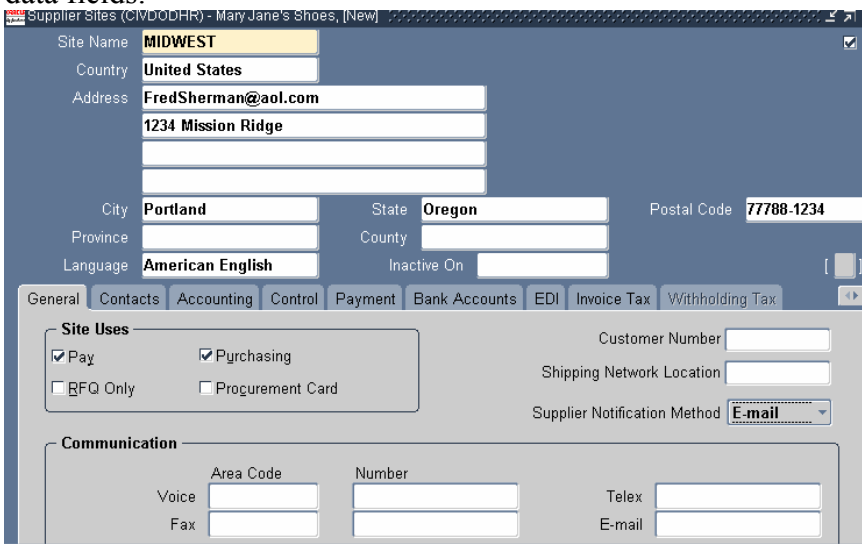

- Components need to establish a specific naming convention before building Suppliers.

Step	Action
1	Select an OTA Responsibility.
2	On the <b>Navigator</b> Window → <b>Organizations</b> → <b>Supplier</b> → <b>&lt;Open&gt;</b> . The <b>Suppliers Summary</b> Window displays.  
3	Query for <b>Suppliers</b> by clicking <b>Ctrl F11</b> . Tab through the entries with the up and down arrow keys on your keyboard. If you have no <b>Local Suppliers</b> , complete the <b>Supplier Name</b> data field. Click the <b>&lt;Sites&gt;</b> taskflow button to add or change address information.

*Continued on next page*

## OTA - Creating a Local Supplier, Continued

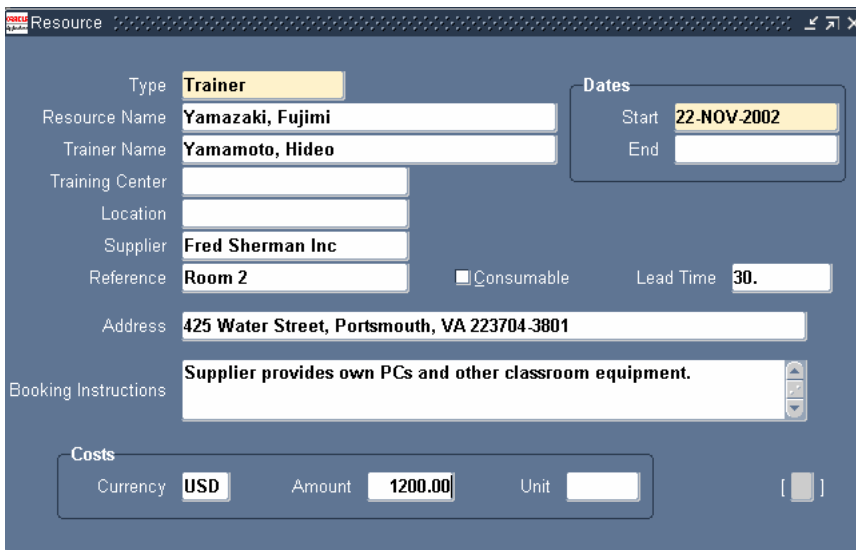

### Creating a Local Supplier (continued)

Step	Action																						
4	<p>The <b>Suppliers Sites</b> Window displays. Complete the following data fields:</p> 																						
	<table><tr><th>Data Field</th><th>Action/Description</th></tr><tr><td><b>Name</b></td><td>Type in location if more than one exists (required but does not populate in the DD1556)</td></tr><tr><td><b>County</b></td><td>Self-explanatory (optional)</td></tr><tr><td><b>Address</b></td><td>Self-explanatory – can add email address here</td></tr><tr><td><b>City</b></td><td>Self-explanatory</td></tr><tr><td><b>State</b></td><td>Self-explanatory</td></tr><tr><td><b>Postal Code</b></td><td>Zip code</td></tr><tr><td><b>Province</b></td><td>Optional</td></tr><tr><td><b>County</b></td><td>Optional</td></tr><tr><td><b>Language</b></td><td>Click the LOV to select</td></tr><tr><td><b>Inactive on</b></td><td>Leave blank if planning to use again</td></tr></table>	Data Field	Action/Description	<b>Name</b>	Type in location if more than one exists (required but does not populate in the DD1556)	<b>County</b>	Self-explanatory (optional)	<b>Address</b>	Self-explanatory – can add email address here	<b>City</b>	Self-explanatory	<b>State</b>	Self-explanatory	<b>Postal Code</b>	Zip code	<b>Province</b>	Optional	<b>County</b>	Optional	<b>Language</b>	Click the LOV to select	<b>Inactive on</b>	Leave blank if planning to use again
Data Field	Action/Description																						
<b>Name</b>	Type in location if more than one exists (required but does not populate in the DD1556)																						
<b>County</b>	Self-explanatory (optional)																						
<b>Address</b>	Self-explanatory – can add email address here																						
<b>City</b>	Self-explanatory																						
<b>State</b>	Self-explanatory																						
<b>Postal Code</b>	Zip code																						
<b>Province</b>	Optional																						
<b>County</b>	Optional																						
<b>Language</b>	Click the LOV to select																						
<b>Inactive on</b>	Leave blank if planning to use again																						
6	<p>Save your action.</p> <p><b>Note:</b> To delete <b>Suppliers</b> from your list, you will need to input a date in the <b>Inactive On</b> data field on the <b>Supplier Sites</b> Window and save again.</p>																						

## OTA - Building and Booking Resources

### Building a Resource

You need to set up resources before you can associate them with **Activities** and book them for **Events**.

Step	Action																		
1	You must be in the role of OTA Trng Adm.																		
2	On the <b>Navigator</b> Window → <b>Resources</b> → <b>Definitions</b> → <b>&lt;Open&gt;</b> .																		
3	<p>The <b>Resource</b> Window displays:</p> 																		
4	<p>Complete the following data fields:</p> <table> <tr> <th>Data Field</th><th>Action/Description</th></tr> <tr> <td><b>Type</b></td><td>Select from the LOV, e.g., Trainer, Venue, other others you can add.</td></tr> <tr> <td><b>Resource Name</b></td><td>Select from the LOV.</td></tr> <tr> <td><b>Dates Region:</b></td><td>Populates with today date; leave End Date blank if you plan to reuse.</td></tr> <tr> <td><b>Trainer Name</b></td><td>Select from the LOV.</td></tr> <tr> <td><b>Training Center</b></td><td>Select from the LOV.</td></tr> <tr> <td><b>Location</b></td><td>Select from the LOV.</td></tr> <tr> <td><b>Supplier</b></td><td>Select from the LOV.</td></tr> <tr> <td><b>Reference</b></td><td>Free form up to 80 characters.</td></tr> </table>	Data Field	Action/Description	<b>Type</b>	Select from the LOV, e.g., Trainer, Venue, other others you can add.	<b>Resource Name</b>	Select from the LOV.	<b>Dates Region:</b>	Populates with today date; leave End Date blank if you plan to reuse.	<b>Trainer Name</b>	Select from the LOV.	<b>Training Center</b>	Select from the LOV.	<b>Location</b>	Select from the LOV.	<b>Supplier</b>	Select from the LOV.	<b>Reference</b>	Free form up to 80 characters.
Data Field	Action/Description																		
<b>Type</b>	Select from the LOV, e.g., Trainer, Venue, other others you can add.																		
<b>Resource Name</b>	Select from the LOV.																		
<b>Dates Region:</b>	Populates with today date; leave End Date blank if you plan to reuse.																		
<b>Trainer Name</b>	Select from the LOV.																		
<b>Training Center</b>	Select from the LOV.																		
<b>Location</b>	Select from the LOV.																		
<b>Supplier</b>	Select from the LOV.																		
<b>Reference</b>	Free form up to 80 characters.

## OTA - Building and Booking Resources, Continued

### Building a Resource (continued)

Step	Action		
4 cont.			
	<b>Data Field</b>	<b>Action/ Description</b>	
	<b>Consumable Checkbox</b>	Click if the resource is consumed when used, and is not reusable.	
	<b>Lead Time</b>	Enter the number of days you must schedule or book the Resource in advance.	
	<b>Address</b>	Type in,	
	<b>Booking Instructions</b>	Free form.	
	<b>Costs Region:</b>		
	<b>Currency</b>	Defaults to USD.	
	<b>Amount</b>	Enter Dollar amount.	
	<b>Unit</b>	Select from the LOV, e.g., hour, week, etc.	
	<b>DDF</b>	Not used at this time – available for customization.	
5	Save your action.		

### Booking a Resource

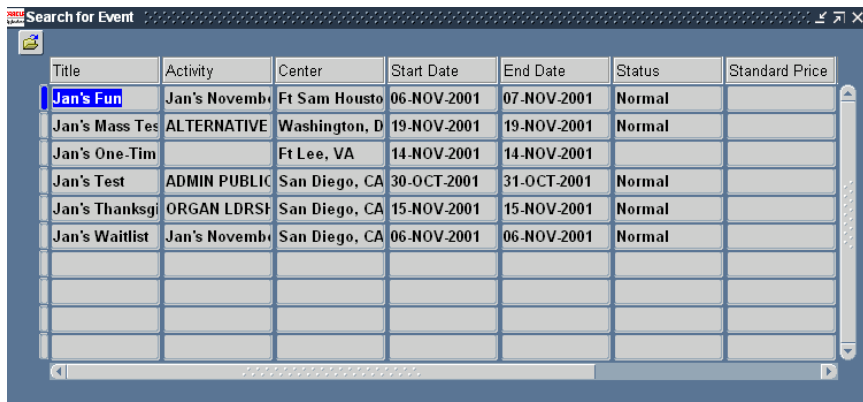

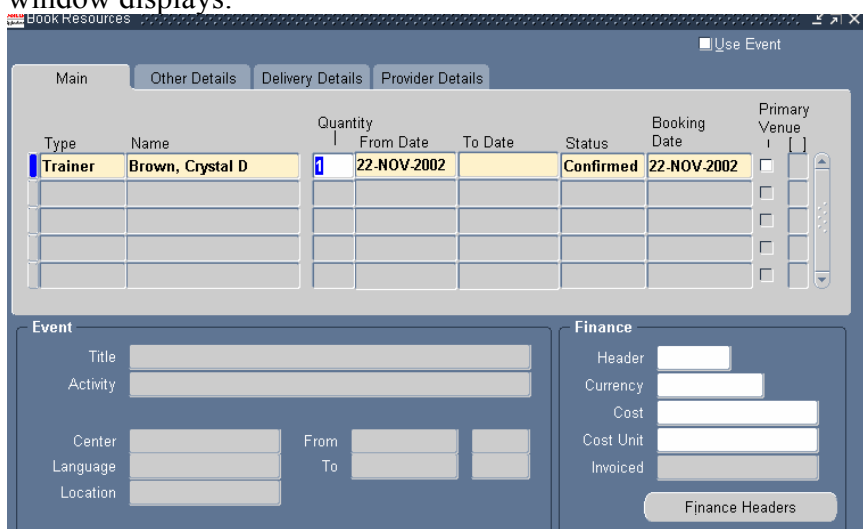

You can book a resource against the **Activity** when you build it or against the **Scheduled Event**. This process will show you how to book it against the **Event**.

Step	Action
1	Select an OTA Responsibility.
2	On the <b>Navigator</b> Window → <b>Resources</b> → <b>Bookings</b> → <b>&lt;Open&gt;</b> .

*Continued on next page*

## OTA - Building and Booking Resources, Continued

### Booking a Resource (continued)

Step	Action
3	<p>The <b>Search for Event</b> Window displays:</p> 
4	<p>Select the <b>Event</b>, then close the window. The <b>Book Resources</b> window displays:</p> 
5	Clicking the LOV, make selections for <b>Type, Name, Quantity, From Date, Status, and Booking Date.</b>
6	Save your action.

## OTA - Enrolling an Employee

### Enrolling an Employee

This responsibility can be given to Training Monitors or Coordinators, as well as Managers/Supervisors in either a **Scheduled Event** or a **One-Time Event**. **Note:** An **Attendance and Signature Sheet Report** will be available as well as a **Registration Report**.

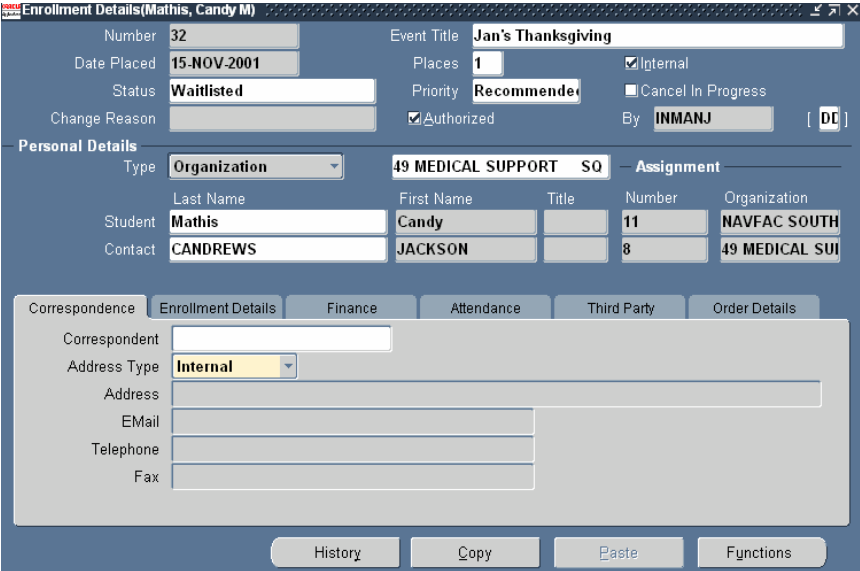

Step	Action
1	Select an OTA Responsibility.
2	On the <b>Navigator</b> Window → <b>Enrollments</b> → <b>Student</b> → <Open>.
3	The <b>Search for Event</b> Window displays. Query for the <b>Event</b> you wish to use, select it, and close the window.

Title	Activity	Center	Start Date	End Date	Status	Standard Price

## OTA - Printing a DD Form 1556/SF182 and Other Reports

### Printing Reports

Step	Action
1	Select an OTA Responsibility.
2	On the <b>Navigator</b> Window → <b>Reports</b> → <b>Submit Report</b> → <b>&lt;Open&gt;</b> . The <b>Submit Requests</b> Window displays
3	Click the <b>Name</b> data field and select the report. 
4	The <b>Parameters</b> Window displays. Click the LOV to select the employee name.

5

The **Requests** Window displays the actions in different colors:

The screenshot shows a window titled "Requests" with a table of request data. The table has columns for Request ID, Name, Parent, Phase, Status, and Parameters. The Status column uses color-coding: green for "Pending", red for "Error", and blue for "Normal".

Request ID	Name	Parent	Phase	Status	Parameters
30422	Registration Report		Pending	@Normal	153, Scheduled, SAN DIEGO, CA, .
30417	Request for Personnel Ac		Completed	Error	215, INMANJ
30410	Budget Costs Breakdown		Completed	Normal	27, 20, 33, . . . . . Y, 2001/11/11 00:0
30403	Registration Report		Completed	Normal	149, Scheduled, FT SAM HOUSTOI
30344	Registration Report		Completed	Normal	129, . . .

Buttons at the bottom of the window include: Refresh Data, Find Requests, Submit a New Request..., Hgld Request, View Details..., View Output, Cancel Request, Diagnostics, and View Log...

## OTA - Setting Up Local Codes

### Setting Up Local Codes

Your Component determines the naming conventions and who will be responsible for setting up local codes..

Step	Action
1	Select an OTA Responsibility.
2	On the <b>Navigator</b> Window → <b>Setup</b> → <b>Lookup Codes</b> → <Open>.
3	The <b>Quick Codes</b> Window displays. With your cursor in the <b>Type</b> data field, query for the code you need; i.e., <b>TRAINING CENTRE</b> .
4	Place your cursor on a blank row or click <b>New Record</b> Button. Type in the new code. For this example, type in a new training center (location) such as Detroit, Michigan.
5	Complete the <b>Description</b> data field The effective <b>From</b> data auto populates with today's date. Leave the <b>To</b> date blank or enter it when you no longer need the entry. Example of a <b>Local Table</b> :

The screenshot shows the 'Application Utilities Lookups' window. At the top, there are fields for 'Type' (ACTIVITY\_SUCCESS\_CRITERIA), 'User Name' (ACTIVITY SUCCESS CRITERIA), 'Application' (Oracle Human Resources), and 'Description' (Successful attendance criteria for activity-based events). On the right, there is an 'Access Level' section with radio buttons for 'User' (selected), 'Extensible', and 'System'. Below these fields is a table with columns: Code, Meaning, Description, Tag, From, To, and Enabled. The table contains several rows of data, with the last row highlighted in blue.

Code	Meaning	Description	Tag	From	To	Enabled
A	A			01-AUG-2002		<input checked="" type="checkbox"/>
B	B			26-AUG-2002		<input checked="" type="checkbox"/>
C	C			26-AUG-2002		<input checked="" type="checkbox"/>
D	D			26-AUG-2002		<input checked="" type="checkbox"/>
F	F			26-AUG-2002		<input checked="" type="checkbox"/>
S	SATISFACTORY			26-AUG-2002		<input checked="" type="checkbox"/>
U	UNSATISFACTORY			26-AUG-2002		<input checked="" type="checkbox"/>
						<input type="checkbox"/>
						<input type="checkbox"/>
						<input type="checkbox"/>
